

## BAKER CANCELS SEVEN BILLIONS IN CONTRACTS

### War Department Has Stores of Powder in Excess of Needs

WASHINGTON, Dec. 5.—Secretary Baker told the senate committee today that the cancellations of the war department contracts amounting to \$7,250,000,000 of the \$24,281,000,000 voted by congress for the army during the war.

Earlier in the day the house appropriations committee which is investigating to determine what part of the appropriations can be returned to the treasury made public a statement from Mr. Baker showing an estimated saving of about twelve billions of dollars or nearly half the total appropriations. Chairman Shirley explained earlier, however, that this estimate was made some time ago and that revised figures furnished by the war department showed an estimated saving of about seven billions of dollars. "Of necessity the figures change from day to day," explained Mr. Shirley, "but it would seem that something more than seven billions of the appropriations for the army could be converted back into the treasury."

The war secretary told the senate committee members of the committee that congress will need to appropriate only about \$1,100,000,000 to contracts made under the \$3,000,000,000 of authorizations provided by congress for which no actual appropriations have been made.

The secretary's statement to the house appropriations committee said the department's disbursements to date in the United States total \$9,159,000,000 and those in France \$1,168,000,000. Mr. Baker previously had informed the committee of contract cancellations aggregating about \$2,600,000,000.

**Twenty per cent of the cancellations** have been divided among states. Mr. Parker said, enumerating those in Michigan, amounting to \$143,700,000; Illinois \$55,000,000 and Indiana \$44,000,000.

Preparations for the cancellation of army contracts were undertaken before the signing of the armistice. Mr. Baker relating that conferences on the war industries board on November 9, manufacturers working on contracts that are to be completed, Secretary Baker said, had been assisted in many instances by permission being given for civilian orders to take precedence over government orders.

The army, he said, has powder in excess of its needs.

"I am very much embarrassed," the secretary added, "as to how to store the amount of powder and explosives which have been produced. The war department has a nitrate plant probably will be continued, he said. Mr. Baker said there is necessity for the Neville Island plant, under construction in the Ohio river and to be used for making powder and guns.

Most construction work of the war department, however, was stopped soon after the signing of the armistice. Mr. Baker told the committee. Contracts for purchases in England and France, he said, are also being cancelled and orders to cease work on many projects were given by General Pershing before he received similar orders directing such action from the war department.

## BIELASKI QUILTS DEPT. OF JUSTICE

WASHINGTON, Dec. 5.—A. Bruce Bielaski, chief of the bureau of investigation of the department of justice has offered his resignation to Attorney General Gregory. He expects to enter private business.

Mr. Bielaski has been at the head of the investigation bureau since 1912 and previously had been assistant chief. He entered the service of the department of justice in 1905 as a workman. He is only 35 years of age and supervises the biggest force of secret investigators in the government service. The precise extent of the service has never been disclosed publicly.

Mr. Bielaski will not leave the department immediately and it is understood the date of retirement is indefinite.

## WILL FORM NEW CABINET

MADRID, Dec. 5.—Count Romanones, who has been engaged in the task of forming a new Spanish cabinet, on leaving the palace at midnight announced that the new ministry would take the oath of office today. The cabinet has been chosen solely from the supporters of Count Romanones, who is a liberal leader.

## LOVETT RESIGNS

WASHINGTON, Dec. 5.—Robert S. Lovett, has resigned as director of the railroad administration's division of capital expenditures and will return January 1, to his former duties as chairman of the executive committee of the Union Pacific.

## Committee Sends Big War Revenue Bill To Congress

WASHINGTON, Dec. 5.—The war revenue bill designed to raise slightly more than \$6,000,000,000 in taxes next year and about \$4,250,000,000 in 1920 will be presented to the senate tomorrow by Chairman Simmons with a view to beginning debate either next Monday or Tuesday. The majority report on the bill and also a minority report from Senator Penrose of Pennsylvania will not be filed until next week. Senator Penrose's report, it was said, will deal exclusively with opposition to the bill's provisions fixing taxes for 1920, to which the Republicans vigorously object. Republican leaders disclaim any intention to filibuster against the bill.

Senator Simmons said tonight that no effort would be made to institute the plan of passing an emergency resolution for imposition of an 80 per cent tax on 1918 corporate war profits unless senate discussion should be so protracted as to threaten defeat of the bill or of the treasury's plans for beginning tax collections early next year. He and Majority Leader Kitchin of the house are prepared, however, to propose the 80 per cent war profits tax if it should be deemed necessary.

In final amendments to the bill today, the finance committee changed the proposed one cent a pound postage zone for second class mail from 200 miles to 150 miles. The one-cent rate, under the final amendment would apply only within the first and second parcel post zones (150 miles) with a rate of 1 and 1-2 cents beyond.

## BULLETINS

**SPRINGFIELD, Ill., Dec. 5.**—Motormen and conductors on the Illinois Traction system went on strike at midnight, turning in their cars at the end of their runs. The men are seeking a wage increase from forty-five to sixty cents per hour.

**LODON, Dec. 5.**—The world's total losses of merchant tonnage from the beginning of the war to the end of October, 1918, by enemy action and marine risk was 15,953,786 gross tons, according to official announcement issued tonight.

**COPENHAGEN, Dec. 5.**—The Berlin government has ordered a search among the private documents of the former emperor for matter relating to the outbreak of the war.

**DUNDEE, Dec. 5.**—(By The Associated Press.)—The British representatives at the peace conference will demand general and absolute abolition of conscription throughout Europe.

**WASHINGTON, Dec. 5.**—The Clyde, Mallory, Merchants and Miners and Southern Steamship Companies were relinquished federal control tonight by order of Director General McAdoo. Steamer companies owned by railroads will be retained under management of the railroad administration.

**LONDON, Dec. 5.**—David Lloyd George, the prime minister, tonight in the election campaign, gave a restatement of his policy. In it he declares that the men responsible for the war cannot escape because their heads were crowned but that they must be tried by an international court. Mr. Lloyd-George said he also was in favor of the exclusion and exclusion of all enemy aliens.

**FORT WORTH, Dec. 5.**—Lieut. Lowell Peterson of Boston, Mass., an instructor of aviation at Fort Mying Field was killed instantly when his airplane went into a spin and fell today. A Jamie Overall, riding with him was severely injured. Lieutenant Peterson entered the service Dec. 1, 1917 at Chicago and was commissioned at Scott Field, Belleville, Ill., last August.

**LONDON, Dec. 5.**—A German physician summoned from Berlin on Tuesday by the former German emperor arrived in Holland today on a special train, according to an Exchange Telegraph despatch from Amsterdam. Three members of the former emperor's staff the despatch adds left Amerkon for Berlin. They are carrying many documents concerning the former emperor's private property.

## RIOTS AT COLOGNE

Basle, Dec. 5.—Certain districts have had to be entirely isolated in consequence of riots at Cologne, barriers of troops being stationed there to prevent further pillage.

Numerous persons were killed or wounded in the riots of yesterday and large forces of police and civil guards had to take stringent measures against the gangs of marauders which ransacked shops and houses. Machine guns were used but even after the crowds were dispersed they spread all over the town and continued looting.

## BRISBANE TELLS OF HIS DEALINGS WITH BREWERS

### Explains Borrowing Money for Purchase of Times

WASHINGTON, Dec. 5.—Arthur Brisbane explained today to the senate committee investigating brewers' and German propaganda that he purchased of the Washington Times with money loaned by the brewers. He also was questioned regarding his business relations with William Randolph Hurst, sentiments expressed in his editorials and other matters.

Mr. Brisbane told the committee that he arranged a loan for the purchase of the Times with money loaned by the brewers. He also was questioned regarding his business relations with William Randolph Hurst, sentiments expressed in his editorials and other matters.

The brewers advanced \$375,000. The witness denied allegations of pro-German sentiments in editorials written saying he always has supported the cause of the United States and strongly opposed to Germany. Excerpts from editorials appearing in Hearst newspapers were produced by the committee and Mr. Brisbane was asked regarding their authorship.

Since only portions of the articles appeared in the reprints, the witness was not positive as to their author and he was given the excerpts with which to go over the files to determine whether he wrote the originals.

"If there was anything in these favorable to Germany I know it did not write it," the witness declared.

**Hearst Knew Nothing of Deal**—Mr. Brisbane said William Randolph Hearst knew nothing of his purchase of the Times until after the transaction was completed and that Mr. Hearst at first objected to it because Brisbane's contract with Hearst stipulated that the former give his entire time to the Hearst papers at a salary of \$2,000 a week. The witness said he told Mr. Hearst that if the Washington Times interfered with his work Hearst could take over the Times at the price paid to Frank A. Munsey.

Senator Sterling of South Dakota questioned Mr. Brisbane about editorials in which he said that "England has not always been renowned for her unselfishness."

"Now, isn't that reference to the principal ally of the United States calculated to reflect on the United States?" the senator asked.

"No, I do not think so," the witness replied. "I thought then and I think now that England has not always been renowned for her unselfishness. This is not a reflection on the United States."

Brisbane said that A. Mitchell Palmer, whose charge that brews had financed the purchase of the Times offered to sell him the New York Evening Mail after that property came into Palmer's hands as alien property custodian. The price fixed was \$750,000. The witness said, but he declined to purchase it because it was losing money. The only other newspaper he owned, Mr. Brisbane said he purchased the Wisconsin Free Press and News and consolidated them and that brewers were not involved in that transaction.

**Favors Beer and Wines**—The witness told the committee that his attitude toward the use of beer and light wines brought him in touch with the brewers. He said he asked Mr. Munsey to sell him the Times and let him pay for it out of its earnings, but the request was refused. He then went to Feigenspan.

"I said to him," declared the witness, "you know how I feel toward your business." Brisbane then laid before Feigenspan the plan for a loan to purchase the Times and the brewer said he believed it would be a good investment. The witness went on to say that Feigenspan said he did not know that he could advance the full amount himself but that he would raise the money among his friends.

Feigenspan, according to Brisbane, refused to take a mortgage on the Brisbane real estate saying he did not wish to make a record of the loan as it might appear that he was purchasing newspaper support.

"Do you regard that as a loan or do you regard it as a gift?" asked Senator Wolcott of Delaware.

"As a loan, absolutely," the witness replied.

**Explains Loan to Berger**—A loan by Mr. Brisbane to Victor Berger of Milwaukee, the Socialist who was elected to congress at the last election and who is under indictment for violation of the espionage law was described by the witness. He said labor unions in Milwaukee erected a building which they called the Brisbane Building and that he loaned Berger \$3,000 for the project.

Brisbane told the committee that in 1917, when the British government closed the transatlantic cables to the Hearst newspapers and news agency he communicated with Lord Northcliffe.

## President Wilson Dons Life Preserver

ON BOARD THE U. S. S. GEORGE WASHINGTON, Dec. 5.—(By the Associated Press.)—10 p. m.—President Wilson today faced the test that the American troops have been undergoing on their way to France. The American executive was forced hastily to don a life preserver and prepare to abandon a ship which theoretically had been attacked by a submarine.

This afternoon the alarm bell and the buzzer in the president's apartment gave the signal to prepare to take to the boats.

Previously having been instructed by Captain McCauley, President Wilson left his office and called Mrs. Wilson and led her to a lifeboat. The president assisted Mrs. Wilson in adjusting her life preserver and then they stood in line waiting. Meantime all the ship's company was doing the same as the president. The drill was perfectly conducted and the people on board the George Washington could have abandoned the ship in ten minutes.

There was a steadily roughening sea today and the conveying destroyers looked like big submarines awash. The heavy swells at some times made things uncomfortable for those not used to the sea but President Wilson seemingly was enjoying the trip.

Seven of the twelve destroyers escorting the George Washington turned back today.

## Three American Peoria Awarded Soldiers Given Next Convention High Honors Of Labor Men

WASHINGTON, Dec. 5.—Three American soldiers—a colonel, a captain and a private—have been designated by President Wilson to receive the highest military decoration given by the United States for valor in action, the congressional medal of honor. They have won the first of the medals awarded during the war with Germany, and their names are:

Colonel Charles W. Whittlesey, 38th Infantry.  
Captain George G. McNulty.  
Private Thomas C. Neibauer.

Colonel Whittlesey then major, and Captain McNulty were at the head of the famous "lost battalion" of the 38th, who lost half its men holding out against the enemy when surrounded in the Argonne forest until relieved five days later.

Private Neibauer distinguished himself when the Rainbow division took Coe de Chattillon in October by stopping an enemy charge against a ridge single-handed with his automatic after all others of his patrol detachment had been killed or wounded. In spite of wounds through both knees, he completed the exploit by bringing in eleven Germans at the point of his pistol.

## CROWN PRINCE CRYING FOR HELP

LONDON, Dec. 5.—"You English clamor to get father and me away from Holland. We are down and out and my father is a broken man. Isn't that enough punishment?" The former German crown prince said in an interview on the island of Wieringen, with a correspondent of the Daily Mirror.

Frederick William added that he always favored an agreement between Germany and Great Britain and wished them to work together. A number of his best friends were in England and he only wished he could live there as a private citizen.

"I quarreled with my father in regard to Great Britain," he continued. "I told him the British would be against us. He never believed this and would not take into account that possibility."

## TWO ARE KILLED AND 23 INJURED

POMPTON LAKES, N. J., Dec. 5.—Ten men were killed and twenty-three injured here late today by four explosions which destroyed the detonator assembling building of the Dupont Cap Works and shook the countryside for miles around. Fire which followed the explosions was confined to the one unit and the property loss was said to be slight.

With the first blast hundreds of men, women and children who had relatives working at the plant hastened to come scene, but guards barred them at the gates.

Officials of the company said they believed an employee at work assembling French fuse detonators which are filled with fulminate of mercury had dropped one of them. Exploding, this had set off the stock in the building.

## QUINCY MAN HEADS IMPLEMENT ASSOCIATION

PEORIA, Ill., Dec. 5.—Oscar Keller of Quincy was elected president of the Illinois Implement and Vehicle Dealers' association at the closing session of the convention here today. Other officers elected were O. L. Myers of Illinois, vice-president; E. E. Vorhees, Blandinsville, and Daniel D. LeRoy, Bloomington, directors; W. L. Derry, Vermont, secretary-treasurer. Peoria was named the next convention city.

## ASK ACQUITTAL

NEW YORK, Dec. 5.—Instruction to acquit Miss Elizabeth Baksa, the 19-year-old Freemansburg, Pa., girl accused of the murder of Mrs. Helen Hamel, lodging house keeper, was given to the jury today by Judge Rosinsky.

## PEACE MEETING ALL DAY THEME AMONG SENATORS

### Cummins Would Send Special Committee To Paris

WASHINGTON, Dec. 5.—Resolutions and debate on subjects connected with the peace conference again occupied part of the time of the senate today and tomorrow's session probably will be taken up largely with discussion of the resolution of Senator Cummins of Iowa, providing for appointment of special senate committee to go to Paris to report on the peace meeting. The senate foreign relations committee voted unanimously today to report the Cummins resolution adversely but its author plans to make a vigorous speech in support of it.

In anticipation of this address Senator Pittman of California, Republican, started debate today by informing the senate that there were reports that Edgar Sisson of the committee on public information was to be in charge of arrangements for "rationing" cable space for the transmission of reports on the peace conference. Senator Johnson said he hoped that George Creel, chairman of the commission, would not censor the reports. Senator Watson and Senator New and Senator Sherman joined in the criticism of Mr. Creel.

In the course of his address Senator Sherman vigorously attacked Representative Mann of Illinois the Republican leader in the house as the result of Mr. Mann's recent statement saying that the country was not in sympathy with criticism of the president while the chief executive is at the peace conference. Senator Sherman did not name Mr. Mann, but he said the author of the statement spoke for no one but Hyde Park and the South Side of Chicago.

**Opposes Alliances**—During the session today Senator Borah of Idaho, Republican, introduced a resolution proposing reaffirmation by the senate of policies enunciated by Washington and Jefferson, warning against entangling alliances with European nations.

The senate adopted a resolution by Senator Jones of Washington, Republican, calling upon the state department for information designed as the basis for legislation to insure preferential treatment for American shipping and commerce.

Senator Pittman, in submitting his report explaining the committee action on the Cummins resolution said the proposed committee could perform no constitutional function imposed upon the senate with relation to treaties and that it would have no legal status in connection with the negotiation or making of the treaty.

Senator Pittman also said that the presence of the committee at Paris might embarrass and interfere with President Wilson in the performance of his constitutional duties in the making of the treaty.

**ILLINOIS PRODUCES CHAMPION STEER**—CHICAGO, Dec. 5.—Illinois produced this year's grand champion yearling steer at the International Livestock Exposition which sold for \$3350 or \$2500 per pound said to be the highest price ever paid for a beef steer and may provide the Christmas dinner of President Wilson and the American peace delegates of the president still in France on that date.

The animal Effe Knight was raised at the University of Illinois.

Wilson & Co., packers, brought the animal to present to President Poincaré of France and shipping has been arranged so that arrival in Paris by Christmas is possible. Effe Knight was the Angus type.

The 1917 champion Merry Monarch, sold for \$210 a pound, the best previous figure for a beef steer.

## GERMAN CIVILIANS SMUGGLED INTO PARIS

PARIS, Dec. 5.—Seven Germans, one of them a woman, who formerly lived in Paris, have found means of returning here but have been discovered and arrested. They had taken advantage of homeward interned civilians from Germany to smuggle themselves into France and make their way to this city. Their plea was that they thought the existence of the armistice permitted their return.

## WOMAN INTERNED

CHICAGO, Dec. 5.—Miss Emma Campen, arrested during the fourth Liberty loan campaign for shouting "that's a lie," at a speaker who was telling of German atrocities, was ordered interned today. She is the first woman in Chicago to incur this penalty. Miss Campen, a teacher was found to have been in communication with German agents.

## PERKINS GOING TO EUROPE

NEW YORK, Dec. 5.—George W. Perkins and Mortimer L. Schiff, representing the Y. M. C. A. and the Jewish Welfare board, engaged passage on the steamer Mauretania today for Europe, where they will supervise the expenditure of the \$203,000,000 United War Work fund. They will co-ordinate the work of the various organizations.

## Glass Nominated To Be Secretary Of the Treasury

WASHINGTON, Dec. 5.—The nomination of Representative Carter Glass of Virginia to be secretary of the treasury, which was sent to the senate today from the White House, was referred to the banking committee in the usual way. Senate leaders expect prompt confirmation of the appointment which was decided on by President Wilson before he departed for Europe but which was not made public pending Mr. Glass' decision to accept.

Mr. Glass will take office December 16 under an agreement with Secretary of the Treasury McAdoo who submitted his resignation some time ago to take effect upon the appointment of a successor. No changes in policy will be made, Mr. Glass said today. Representative Glass has served eighteen years in congress and was recently re-elected.

A new director general of railroads to succeed Mr. McAdoo may not be named for two weeks or more, it was said today. The resignation of Robert S. Lovett as director of the railroad administration's division of capital expenditures announced today and his insistence on going back to old duties as chairman of the executive committee of the Union Pacific was considered as having left Mr. McAdoo without a candidate immediately at hand to recommend to President Wilson.

Mr. McAdoo today conferred with his advisory staff of the railroad administration concerning proposed plans for supervising railroads when they are turned back to private management. Two differing plans are understood to have developed among his advisers. One proposal is to have the railroads merge into regional groups, with common operating management to start and eventually to develop into common ownership with the roads themselves selecting their regional managements in which the government would be represented. The other plan put forth is for the roads to operate individually and privately, competing for service, but under the supervision of a government agency to be known perhaps as the department of transportation headed by a cabinet member. To this agency would be left largely the question of making proper rates, administering the common use of terminals and pooling of cars and, to a certain extent, the routing of freight traffic. Both plans would propose government supervision of railroad security issues.

**VETERAN YANKS TO STAY IN FRANCE**—WASHINGTON, Dec. 5.—Secretary Baker gave it as his personal opinion today that none of the veteran divisions of the American army in France will return home before peace formally is declared. He indicated that the fighting men would compose the bulk of the force to be kept in Europe for the present.

Heretofore the understanding has been that the Rainbow division and two or three other famous units would be brought home soon, leaving their places to be filled by some of the new conscripts. Several of the divisions which have seen much hard fighting are assigned to the American army of occupation which is marching in to Germany. Army officers say that it was necessary to make up this army of tried troops because there was no saying what eventualities might come to pass.

Recent dispatches from France have said that an American army of 1,250,000 was to remain in Europe for duty until after the proclamation of peace and some veteran divisions in addition to those now marching into Germany probably will be included in that force.

**NFLUENZA AGAIN RAGING IN CHICAGO**—CHICAGO, Dec. 5.—Four hundred and four new cases of influenza and eighty-nine of pneumonia with a total of thirty nine deaths from both diseases were reported in Chicago today. This was nearly double the number reported yesterday. The health authorities announced that the situation was more acute than at any time since the epidemic was at its height several weeks ago. Nearly a score of moving picture theaters have been ordered closed again for failure to provide sufficient ventilation.

## LORD CECIL REPRESENTS BRITAIN

London, Dec. 5.—Lord Robert Cecil, former assistant secretary of state for foreign affairs, has been asked to take charge of the British section of the peace conference in Paris. The congress which is to deal with the question of a league of nations.

Lord Robert made this announcement tonight in a speech at Letchworth.

"I very cordially accepted the invitation," said Lord Robert.

## PERMANENT MERCHANT MARINE

Washington, Dec. 5.—A resolution asking the shipping board to propose legislation for development of a permanent American merchant marine was adopted today by the senate without debate upon motion of Senator Jones of Washington.

## GENERAL MARCH REPORTS ON WAR TO SEC. BAKER

### General Reorganization of Army Being Worked Out

WASHINGTON, Dec. 5.—The army program of eighty divisions in France by June 30, 1919 was unmarked upon with complete confidence that Germany could and would be defeated during 1919 if the project was carried out. General March, chief of staff, declares in his annual report to Secretary Baker made public today. That conviction was based on a comprehensive study of the whole war situation ordered by General March immediately after he assumed his duties as the head of the army last March.

"After a study of the entire situation," the report says, "including as accurate an estimate of the potential strength of our allies on the western front and of the probable German strength as was possible, I came to the conclusion that the war might be brought to an end in 1919 provided we were able to land in France by June 30 of that year eighty American divisions of a strength of 3,360,000 men."

"In this study I recommended to you the adoption, as the American program of eighty divisions in France and eighteen at home by June 30, 1919, based on a total strength of the American army of 1,850,000 men. This was approved by you and by the president of the United States and adopted as our formal military program."

"To carry this program into effect required the adoption by congress of a change in the draft ages so as to include men between the ages of 18 and 45 years and also created a deficiency over the enormous appropriations already made by congress of some \$7,000,000,000. The presentation of the program to congress accompanied by the statement that this increase in the army if laws were passed by congress which would make it effective would lead to success in 1919, produced prompt and favorable consideration by that body."

"Up to the signing of the armistice troops were being transported to France monthly in accordance with that program. The results speak for themselves."

**Reorganization of Army.**—The announcement that a complete plan of reorganization for the army including the staff is being worked out was made as follows:

"I have directed the divisions of the general staff concerned to study and submit for your consideration a plan for the reorganization of our army which will take advantage of our experience in this war which has brought about many changes in organization of all arms of the service and has developed new arms not known when the war started. The service, the tanks corps, the development of heavy mobile artillery, the proper organization of divisions, corps and armies all will be set forth in the scheme which will be submitted to you with the recommendation that it be transmitted for the consideration of congress."

The modesty and gallantry of the individual American soldier in France, "is a matter of pride to all Americans," General March declared, adding:

"The chief of staff also commends the work of General Bliss at Versailles, which he says was of the greatest value to the department."

Appended to the report is a terse chronology of the operations of the American army in France and a day to day sketch of the campaign beginning on April 8, 1917, and concluding November 11, 1918, when hostilities ceased.

## PLANS FOR DEMOBILIZATION

ROCKFORD, Ill., Dec. 5.—Camp Grant will be the scene for thousands of troops returning for demobilization. It was announced today. Three thousand men from Camp Cody are now on their way to demobilize here, it was said. Two thousand more are coming from Hoboken, 1900 from Camp MacArthur, 500 from Fort Monroe. Orders have been received to discharge the men immediately on their arrival.

## WEATHER

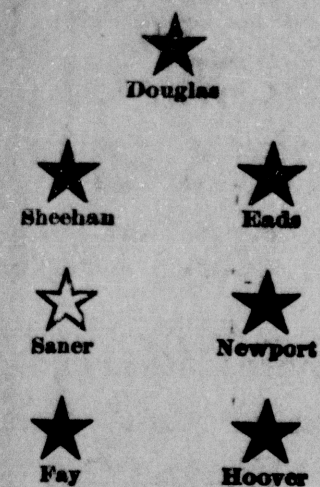

ILLINOIS—Generally fair Friday and Saturday; much colder Friday; rising temperature Saturday.

Temperatures.

The current, maximum and minimum temperatures as recorded Thursday were:	
Jacksonville, Ill.	56 64 27
Boston	30 36 23
Buffalo	32 34 24
New York	34 38 20
New Orleans	60 72 54
Chicago	45 46 32

It is time to begin again now to print the slogan, so long familiar at this period of the year. "Sixteen more shopping days until Christmas." This would not have been permissible except for the removal of the ban on Christmas shopping which the end of the war brought about. Now the slogan is "Shop early and often," for there is real reason for Christmas cheer this year, and besides, liberal shopping will help in keeping business conditions alive.

THE CROWN PRINCE

The crown prince's whining stories about his lack of responsibility for the war and his friendship for England and America will fall on deaf ears. The wording of his interviews indicates that the crown prince has just about as much character as one supposes after a glance at his portrait. It has been several times suggested that the best job for the crown prince would be licking postage stamps because "his chin would not be in the way."

The food administration, with the assistance of packers, is maintaining a \$17.50 per cwt. hog price as promised. The announcement has been made that the same price will prevail next month. These facts indicate how comparatively simple it is for prices to be maintained when the government gives the order or the limitation. Now when shipmen's begin to come too rapidly the government simply stops them and there is no over-flooding of the markets, which would otherwise be true. One cannot help wondering what will happen in the livestock markets when Uncle Sam takes his hand off the lever.

The senate investigation of Arthur Brisbane's purchase of the Washington Times is very interesting. It reveals the unfortunate connection of a great newspaper editor with the brewery interests. When the brewery advanced \$375,000 for this purchase it is difficult to believe that they did not expect to get value received in the brewery "propaganda" that Mr. Brisbane would disseminate. Whether or not Mr. Brisbane is found guilty of the charge made against him, of printing editorials favorable to

Germany, his influence in the newspaper world has been greatly lessened by the inside story of his Times purchase.

**WORKING TOGETHER**  
Gov. Lowden in a recent address before the Illinois labor federation at Bloomington, declared that the spirit of co-operation which has been developed by the war is one of its most important results. The governor sees in co-operation the possibilities of settlement for some of the constantly vexing industrial problems. He expressed the belief that the school courses should be given which would lead to the competency of young men to manage co-operative enterprises. It was co-operation of the allied armies overseas that won the day, just as it was co-operation of labor and capital, of men and women in all walks of life here at home, that made the war result possible. It will be indeed too bad if these war lessons in co-operation are soon forgotten.

A CHANCE FOR CITY REVENUE

In these days when Jacksonville is admitted to be in distress, financial straits one good source of revenue is being overlooked by the city commissioners. If all the automobile speedsters on West State street, South Main street were arrested and fined each day the city would have enough money to meet its daily expenses, at least until a general observance of the traffic law came to pass. There is certainly an increasing disregard for the traffic law manifested by car drivers, particularly on the two streets mentioned, no doubt because they are newly paved.

Some of these speedsters should be arrested and fined and an end put to this flagrant violation of law. The wonder is that fatalities have not already resulted and certainly that day will come unless there is an early reform. Aside from speedsters there is continual violation of the ordinance which provides against driving with the cut out open. This practice is worse at night than in the day time, for residents along the streets mentioned are frequently disturbed by the roaring and popping from open cut outs. It is time to enforce the law and help finance the city.

THIS DATE IN HISTORY

December 6, 1863—Cairo, Ills. Steamers "Fanny" and "Welcome" from New Orleans arrived from New Orleans at Cairo. Both boats were fired into with musketry at Water-point on their way up. The watchman on the "Fanny" received a slight wound in the leg; no other harm done. No one hurt on the "Welcome."

FEDERATIONS OF CHURCHES APPROVED

PHILADELPHIA, Dec. 5.—The proposed federation of churches was approved and resolutions recommending the appointment of an interdenominational committee of every Protestant faith and of the home and foreign missionary societies to take definite steps toward organic church union were unanimously adopted today by the congress for church unity in session here each denomination will have member of this committee for every 5000 communicants acting as delegates at large to a convention to be held in 1920 when it is proposed to take decisive action on the question. The home and foreign missionary societies also will be represented by one member each. The Presbyterian members are given power to call the committee together.

Checks are now ready for members of our Christmas Savings Club. F. G. FARRELL & CO. Bankers

RETURN FROM EASTERN TRIP

Mr. and Mrs. C. W. Buckingham at Home—Spent Much of Stay in East at National Capitol.

Mr. and Mrs. C. W. Buckingham have returned to Jacksonville after a visit of several weeks in the east. Part of the time they were in Pittsburgh and Washington. It was Mr. Buckingham's intention when he went east to engage in some type of government work for which his experience as an architect would fit him, the matter having been covered by correspondence during preceding months. But the signing of the armistice put an end to this necessity and Mr. and Mrs. Buckingham determined to continue their visit for a few weeks and then return to Jacksonville.

While Mr. Buckingham spent much of his time in the inspection of public buildings and in some private residences in the study of architecture, he was really most impressed with the peace celebrations in the east. The spectacle of the celebrating thousands in eastern cities will ever be remembered. Mr. and Mrs. Buckingham were in New York City when the United War Work campaign was on and said yesterday that the organization work was the most intensive they had ever seen. One could hardly move twenty feet along the street without passing a solicitor.

As already mentioned, Mr. Buckingham had planned to make a particular study of colonial architecture while in the east as a preparation for a residence he expects to plan for a client. Altho he was anxious to get into war work and do his part, he is of course pleased that it was not necessary and that he is now able to return to his general work in Jacksonville.

LIEUT. MATTHEWS IS CITED FOR BRAVERY

Tulsa Paper Tells of Recognition Paid Son of E. C. Matthews For Bravery Shown at War Front.

Relatives of Lieut. Howard A. Matthews, who is in the overseas service of the U. S. army, can well take pride in the fact that he was some weeks ago cited for merit. The wounded at Marcheville in the St. Mihiel sector, he continued in action under heavy enemy fire. Lieutenant Matthews is now recuperating at Nice and will return to his command after the holidays, so it will be several months at least before he is Matthews, formerly a resident of a nephew of Mrs. William Barr Brown, Jr., of this city. A Tulsa (Okla.) paper recently made the following reference to Lieut. Matthews and to his father, E. C. Matthews, formerly a resident of this city:

"E. C. Matthews, well known oil man of this city, has received the following notice from the division headquarters in France, of which his son Howard Matthews is a lieutenant, a citation of merit, which is certainly enough to make any man proud, as it is a fine commendation of the gallantry displayed by him, and reads as follows:

"Discipline and Stout Hearts." Motto of the Yankee Division.)

Second Lieutenant Howard A. Matthews, 102d Infantry. "I have read with much pleasure the reports of your regimental commander and brigade commander regarding your gallant conduct and devotion to duty in the field on September 25-26, 1918, though wounded, continuing in action under heavy enemy fire at Marcheville, Riville, St. Mihiel sector and have ordered your name and deed to be entered in the record of the 'Yankee division."

"C. R. Edwards, "Commanding 26th Division."

STRICTER QUARANTINE RULES ADOPTED

Health Authorities Held Conference Thursday Night—Officers Has Been Employed and Will Keep Eye on Quarantined Houses—Rules for Physicians.

A conference relating to the local health situation was held last night in the office of Dr. A. M. King, city health physician. As a result more stringent quarantine rules will be enforced. A special health officer will visit every quarantined house once or twice a day, physicians visiting flu patients will be required to wear "gowns" and all violators of regulations will be arrested and fined. At the conference Dr. E. F. Baker represented the state health department, J. E. Martin the city health department and there were a number of persons representing the Red Cross influenza committee. In addition a number of physicians attended the conference.

The discussion lasted for more than three hours and the company included in addition to those already mentioned, M. F. Dunlap, Judge E. P. Brockhouse, Miss Kimble, Miss Coale, Miss Seeger, Dr. Edward Bowe, Major H. C. Woltman and Dr. George E. Baxter.

Quarantine Laxness.

It was generally agreed the most frequent cause for complaint and possibly the real cause of the continuance of the disease here is laxness with reference to quarantine. It was stated that many people who would not think of breaking other laws frequently fail to observe the quarantine regulations which have been authorized by the state board of health and thus become enforceable under the law. Mr. Martin told of his plan to secure better observance of quarantine rules thru a special health officer, Harry Adams, having been appointed for that work.

It will be the duty of the health officer to visit quarantined houses once or twice each day and in other ways to get a line on persons in those houses and find out if the rules are being observed. Mr. Martin said that additional special rules are being prepared and will be immediately made known for the guidance of the public. These rules have been adopted with the approval of Dr. Baker, representative of the state board of health.

Rules for Doctors

As it is claimed the disease germs can be carried in clothing, a rule has been made that doctors who visit flu patients must wear medical gowns and disinfect them after they leave the premises and before visiting other patients. Doctors or other persons who know of flu cases are required under penalty to report them to the health officers. The only persons who can leave premises where flu exists is the "bread winner" and he must wear clothing which has been disinfected and change when he re-enters the house. There are some other rules to be laid down but those mentioned are the most important.

**WANTED**  
Cook and assistant cook at Passavant hospital.

**MEXICANS RAID U. S.**  
BANCH Fabens, Texas, Dec. 5.—Armed and mounted Mexicans raided the Place ranch on the American side of the Mexican border at noon today. They attempted to lead off a number of work horses after driving a Mexican ranch employee away. The arrival of United States patrols forced the Mexicans to ee. They are believed to be a part of a Villa band.

AMERICA CALLED A NATION OF BOASTERS

NEW YORK, Dec. 5.—Altho America is called a nation of boasters, "we do not fully realize great we have become," and how important a part the United States is to play in international trade after the war, declared Frank A. Vanderbilt, president of the New York City Bank of New York in an address here tonight.

The habit of thrift acquired during the war by Americans who own approximately \$20,000,000,000 worth of government bonds, would add to this country's international strength and future development, he said. While admitting that "the labor situation is fraught with all sorts of unfortunate possibilities he declared that the problem of finding work for the army or men thrown out of employment here by the cancellation of war contracts would be solved satisfactorily.

**ENDORSE GREAT MERCHANT MARINE**  
ATLANTIC CITY, N. J., Dec. 5.—Scores of resolutions calling for a great merchant marine to carry the awakened commerce of the country to all lands and for less control of business and removal of government restrictions and regulations governing production and distribution were adopted today by group meetings for presentation tomorrow at the reconstruction congress being held under the initiative of the chamber of commerce of the United States. Here and there in the group meetings it was pointed out that the government supervision over production had been a manufacturing waste and that while federal control is not desired there might be some means devised by which the government might aid in the conservat on of raw and other materials.

ART WILL REPLACE SNAKE CHARMER

Chicago, Dec. 5.—Art will replace the snake charmer and fat lady as an attraction at county fairs next summer it was announced by speakers today at the American association of Fairs and Expositions' convention.

An effort will be made, it was declared to appeal to the art sense American soldiers have acquired in Europe.

RED CROSS MEMBERSHIP NAVY IN CLOSE TOUCH WITH WILSON

Chairman Metcalf Ready with Committee Appointments in Few Days—Publicity Matter Here.

Plans are well under way for the Red Cross membership campaign which is to begin Monday, Dec. 16. The nation wide campaign for members for the work of the Red Cross society must continue. While the national campaign is to cover a period of seven days, A. C. Metcalf, Morgan county chairman, said yesterday that he had hopes thru an intensive organization to complete the campaign here in three or four days' time. It is the desire of the Red Cross organization to have every person in the county solicited for membership. The county has now nearly 9,000 Red Cross members as the result of the last campaign. It is desired to have all of these persons renew their membership and to secure as many additional members as possible.

The Chicago organization has shipped a large supply of posters and other advertising matter and the work of distribution thruout the county will begin very soon. Lloyd Reid has general charge of this publicity work and in the county Dr. E. B. Landis will be responsible for the distribution and in the city Harry Walker. Within a very few days Chairman Metcalf plans to have the names of the local committees ready for publication. As in some former campaigns, all of the city and county will be separated into districts and adequate force of solicitors named for each one. Further particulars about the campaign plans will be given from day to day.

Checks are now ready for members of our Christmas Savings Club. F. G. FARRELL & CO. Bankers

VAN TUYL WILL ADMITTED TO PROBATE

In the probate court yesterday Judge Paul Samuel, after hearing evidence and argument, admitted the will of the late Martha Van Tuyl to probate. There were objections to the probate of the will on the ground that the testatrix was of unsound mind at the time she signed the document. R. C. Reynolds and W. P. Duncan were the witnesses to the signing of the original will and R. C. Reynolds and J. P. Lippincott witnesses to the signing of the codicil.

These men were before the court to testify to Mrs. Van Tuyl's mental condition. The case occupied the entire afternoon and as indicated, Judge Samuel entered the order which admitted the will and thus declared that the testatrix was capable of making such a document.

**WANTED**  
Cook and assistant cook at Passavant hospital.

Continuous Communication By Radio With Steamer George Washington Kept.

Washington, Dec. 5.—The navy department announced tonight that it has been in continuous communication by radio with the Steamer George Washington since it left New York yesterday with President Wilson and his party on board. No information was given, however, as to the kind of weather the vessel and her conveying fleet had encountered or their position.

At the white house tonight it was said that no communications from the president had been received, but it was explained that the president had left his desk clear and that no matters of importance requiring his attention had since developed requiring his attention had since developed.

The navy department's announcement disclosed that special arrangements never before used were made for the handling of the president's message and to insure his being in constant touch with Washington.

**Powerful Radio Apparatus.**  
"The George Washington and the Battleship Pennsylvania," said the statement, "are both equipped with the most powerful transmitting apparatus, some of which was installed for this particular trip."

On board both ships were installed radio telephones and the newest type of low power radio sets for use only in communicating from ship to ship. The George Washington and the Pennsylvania are thus able to communicate with each other and at the same time receive messages from shore.

All the messages for the president are sent by the new naval high power station at Annapolis which is five times as powerful as the Arlington Station. These messages are received by the George Washington and the Pennsylvania simultaneously. All replies are forwarded from the George Washington to the Pennsylvania, and relayed to shore by the Pennsylvania.

At three special naval radio receiving stations, one in Maine, one in New Jersey and one in the navy building, Washington, expert operators are listening continuously for the Pennsylvania's messages. The messages when received are forwarded with utmost despatch to the transatlantic Radio division of the office of the director of naval communications in the navy department and the three copies are compared to insure accuracy. The message is then delivered to the addressee, all outgoing messages pass thru the same office in Washington.

**In Touch With Washington.**  
As the presidential party approaches Europe by arrangements of the navy department, special receiving stations in both England and France will listen for messages from the Pennsylvania and one of the French high power stations will forward messages direct to the ship. The president will thus be kept in touch with Washington and Paris or London simultaneously for the George Washington will receive easily the messages sent from the Annapolis station until the end of the voyage and the ship is in a French port.

While enroute to Europe President Wilson and his party will be kept daily informed of the events of the world thru the navy news press report which is flashed nightly from the naval radio station at Arlington and is relayed to all naval ships and stations both at home and abroad. This report is prepared by a naval officer especially assigned for the work and is made up from Associated Press despatches.

This service it is understood is being supplemented while the George Washington is crossing by additional matter prepared in the state department and referring particularly to affairs of international importance.

JEWELS AUCTIONED

New York, Dec. 5.—Enemy owned jewels seized by A. Mitchell Palmer (alien property custodian and consisting of 359 pearls, three rubies and two emeralds were auctioned here today for a total of \$237,060 said to exceed the appraised price. Virtually all the leading jewelers of the city were represented among the bidders as were many wealthy women.

MORTUARY Moffet Mrs. Clyde Moffet, daughter of Mr. and Mrs. John Boruff of Murrayville, died about 9:10 o'clock Thursday night at St. John's hospital in Springfield. The deceased was a sister of C. A. Boruff and Mrs. Charles Yauco of this city. Mrs. Moffet's illness dated from a few days after the accident which happened during the chautauqua in Jacksonville, when her sister, Mrs. Bessie James, was struck by a falling pole, her death following a few hours later. Mrs. Moffet shortly afterward was in a hospital for treatment of an ailment. Within a few weeks time a mastoid operation was found necessary as her condition became serious. For a time she seemed to improve but more recently serious symptoms again developed and she was taken to the Springfield hospital for another operation. During the last few days her death has been hourly expected.

## Besides being possessed

of greater experience in financial matters, the Farmers State Bank and Trust Company offers, through its capital and surplus, a greater guarantee of good faith than can any individual.

As your Executor and Trustee, it will intelligently follow the provisions of your will; conserve the estate and keep it on a sound paying basis; and make a strict accounting to your heirs.

Carl Keest of Kilbourne was a caller in the city yesterday on business.

John J. Reeve left last night for Macomb to attend to some legal business. He expects to return to Jacksonville Saturday morning.

Albert DeFratres of Sandusky street yesterday suffered a severe fall when he slipped on the cellar steps. Two ribs were broken and he was otherwise bruised. As Mr. DeFratres is past eighty one years of age his injury is the more serious. Dr. H. C. Woltman attended him.

Mrs. Robert Allan of Riggs street neighborhood was a visitor in Jacksonville Thursday and was accompanied by her son, Lieut. Robert Allan, recently discharged from the officers training camp at Camp Taylor. Lieut. Allan was placed on the reserve list, for as he put it yesterday, "If there should happen to be war again I certainly want to be in it."

Crit Haneline of Sinclair was among the business visitors in the city Thursday.

Lieut. John W. Larson, who has been at the officers' training school at Camp Joseph E. Johnston, Fla., was discharged from the military service Wednesday and expected to start for Jacksonville immediately. Mrs. Larson left Thursday for St. Louis and expected to meet Lieut. Larson there today. They may remain in

St. Louis for several days before coming to Jacksonville.

Sinclair Davis is at home on furlough and expects to be here for several weeks. He has been stationed at the navy rifle range at Rumford, Rhode Island.

W. L. Alexander went to Bluffs yesterday to visit his farm in that locality.

## SUGAR FOR EXPLOSIVES.

It is said that the United States some time ago discovered a method for making glycerine from sugar, when an increased supply of glycerine was so necessary in the making of explosives. Possibly this discovery in part explains the shortage of sugar. If American consumers had realized that by denying themselves sugar they were adding to the possibilities of explosive manufacture, whatever their sacrifices would have been even more joyfully given.

Men's gloves in many styles are shown by FRANK BYRNS' Hat Store

## MRS. EMMA BRITT

Tells How Vinol Creates Strength for Thired, Nervous Housekeepers.

Texarkana, Texas.—"I keep house and I was weak, run down and nervous, back ached a good deal of the time, so it was hard to take care of my chickens and do my work. Vinol has restored my strength, and my nervousness has gone, so I can do my work as well as ever."—Mrs. Emma Britt.

There is no secret about Vinol. It owes its success in such cases, to beef and cod liver peptonates, iron and manganese peptonates and glycerophosphates, the oldest and most famous body building and strength creating tonics. We recommend Vinol. For sale by all druggists.

P. S. For itching, burning skin try Saxol Salve. Money back if it fails.—Adv.

## DEATHS

## Tivnen

Miss Mary Tivnen died at the family home, 360 Wolcott street at 11 o'clock Thursday morning of pneumonia. Deceased was 27 years of age and was born in Ashland. She removed to Jacksonville with her parents about 12 years ago.

She is survived by her parents, Mr. and Mrs. Thomas Tivnen, three sisters, Mrs. Anna Large, Mrs. Margaret Stringham and Miss Agnes Tivnen of this city, and two brothers, Thomas Tivnen of Los Angeles, Cal., and Joseph of Jacksonville.

Miss Tivnen was a faithful member of the Church of Our Savior and was highly regarded by all who knew her. Arrangements for the funeral have not been made.

## Clark.

A message received by Miss Lena Engel tells of the recent death of Mrs. Mark Clark at home in Los Angeles. The death resulted from heart trouble. Charles Clark, son of the deceased, who has been with the army overseas, some weeks ago had his ankle shattered by the accidental discharge of a gun in the hands of a comrade. The injured soldier was discharged from the service and sent home. He arrived in Los Angeles Thanksgiving day and so was with his mother for a few days before her death.

Mrs. Clark is survived by her husband, one son and one daughter. The family lived in Jacksonville for a number of years and have many friends who will greatly regret to know of Mrs. Clark's death.

## McNeal.

William Anderson McNeal, a resident of the Sinclair neighborhood for a number of years, died at a local hospital at 11:25 o'clock Wednesday night after a long illness. Death resulted from a stroke of paralysis.

Deceased was born in Bladen Springs, Ala., June 20, 1850 and at the time of death was 68 years, 5 months and 14 days old.

He is survived by two brothers, A. A. McNeal, of Sinclair, and F. M. McNeal, of St. Louis who is in the city to attend the funeral. The body was removed to the undertaking parlors of W. W. Gilliam and prepared for burial. Funeral services will be held at Hebron cemetery Saturday morning at 10:30 o'clock in charge of the Rev. C. G. Cantrell of Concord.

## VanZandt.

George W. VanZandt was born in Georgetown, Ky., Nov. 11th, 1834, and was the son of Isaiah and Cynthia VanZandt. Mr. VanZandt was stricken with paralysis Wednesday night at 8:40 o'clock and passed away at 10 a. m. Thursday at his late home, 782 East College avenue.

His father moved to Jacksonville about July, 1846; where the deceased spent most of his life.

He was the last of eleven children; four sons and seven daughters. He made the good confession March 6th, 1848, in the old church on North Main street and was immersed in the Maudslayi just north of the Morton road and has remained a faithful member all these years of Central Christian church, now located on West College avenue. Mr. VanZandt served as a deacon of the church for a great many years, also a member of the choir for a long time and was one of the church trustees until he moved to Petersburg. He was reckoned one of the city's substantial and reliable citizens.

He was united in marriage May 5th, 1857 to Mary E. Fray, who passed away January 20th, 1905, in Petersburg, Ill. To this union were born five children, three of whom are living. Stella and Edgar L. preceded the father in death. The surviving children are Mrs. Emma V. Campbell, of this city; Mrs. Nellie V. Somers, of Grinnell, Iowa, and Clifford J. of Chicago, Ill.

He enlisted in the War of the Rebellion on the Union side, Aug. 1861, and was mustered out Sept. 1864, serving his country three years, one month in the First Missouri cavalry.

He lived one year in Decatur after his first marriage, then moved back to Jacksonville, which was his home and where he was in business until 1899 when he moved to Petersburg, Ill., where he lived until 1905 when he returned to Jacksonville making his home with his daughter, Mrs. J. H. Campbell, until April 9th, 1907, when he married Mrs. Eta Smedley.

Mr. VanZandt had many friends here who will hear with deep regret of his going and extend sympathy to his bereaved family. He was a member of Urania lodge No. 243, and of the Matt Starr Post, G. A. R. Funeral arrangements have not been made.

## Cully.

Mrs. Minnie Mildred Cully passed away at the family home, 724 East State street at 1 o'clock Thursday afternoon of pneumonia after an illness of nine days.

Deceased was the only daughter of Samuel and Elizabeth Black Maddox and was born near Prentice March 1, 1869. She grew to womanhood at the farm home. In 1888 the family removed to Jacksonville.

On December 24, 1890 she was united in marriage to Charles W. Cully. Following her marriage they removed to Mr. Cully's farm east of the city. They remained there until the death of her mother January 11, 1916 when she and her husband removed to Jacksonville to the family home where she has since resided and looked after her aged father.

Besides her husband, she is survived by her father and a foster daughter, Mrs. Edith Bozarth.

of Nebraska, who was at her bedside when the end came. This foster daughter had lived with Mr. and Mrs. Cully for many years and received all the love and devotion that a daughter would receive and she in turn gave them a daughter's affection.

On December 24, 1915, at the home of Mr. and Mrs. Maddox was celebrated a double wedding anniversary. They marked the fiftieth anniversary of Mr. and Mrs. Maddox and the twenty fifth anniversary of Mr. and Mrs. Cully. A few weeks afterward death claimed Mrs. Maddox.

Mrs. Cully received her education in the public schools of the city and also attended Illinois Woman's college, but did not complete her work there. She early in life became a member of Salem M. E. church. She was a member of the aid society and was always active in all of the work of the church. She was a member of the Strawn's Crossing Woman's club and her efforts were largely responsible for that organization becoming one of the strongest of its kind in the county.

A marked characteristic of Mrs. Cully's life was her devotion to her home. She was deeply attached to her aged parents and her thoughts were ever of making their declining years ones of happiness and content. She was a woman whose life will leave its impress upon the community and her going will bring sorrow to many hearts. To the bereaved husband and the aged father and foster daughter, the sympathy of all will go out in their great sorrow.

Funeral services will be conducted at Jacksonville cemetery Saturday afternoon at 2 o'clock in charge of the Rev. G. T. Welch, assisted by the Rev. W. R. Leslie.

A UKULELE makes a nice gift. J. P. BROWN MUSIC HOUSE.

MARRIES TWO  
WEEKS AGO; DIES

Mrs. William Zellmer of Scott County Passed Away in Coria —Charles Chance Injured by Fall—News Notes.

Winchester, Dec. 5.—Word was received here Thursday of the death of Mrs. William Zellmer, who was formerly Miss Kathleen Dugan and whose marriage occurred just two weeks ago. The deceased suffered an attack of influenza which later developed into pneumonia, her death occurring in Peoria, Ill. The arrangements for the funeral are yet unknown. The mother of the deceased started for Peoria but was met at Beardstown by the message that her daughter was dead.

Claude Thomas and mother left Thursday afternoon for Rockhouse going in Mr. Thomas' car. Mrs. Thomas will remain for a visit there at the home of Dr. L. R. Thomas and family.

Charles Chance, son of Mr. and Mrs. Matthew Chance, met with a painful accident Wednesday morning. He was running along the street and in some manner fell in such a way that he cut a gash over one eye and suffered a concussion of the brain. The lad had just recovered about two weeks ago from influenza. Members of the family have the special sympathy of Winchester citizens as all of them have recently been ill with the exception of Mr. Chance.

Joseph Roark and family were Jacksonville visitors Wednesday. Samuel G. Smith was expected Thursday night from the Great Lakes station in Chicago, having received honorable discharge from the service.

Mr. and Mrs. Chester Neat have purchased the property of George W. Murray in the south part of town and in the near future will occupy it as their home.

Mrs. George Wheeler returned to her home near Sinclair after a visit with relatives in Winchester.

Carl Woodall was kept away from his store Thursday on account of illness.

Mrs. Henry Kehl has received a valuable souvenir from her brother, William Dixon, somewhere in France. It is a brass candlestick and was taken from a piano in a dugout which had been occupied by Field Marshal Von Hindenburg and staff. In his letter Mr. Kehl told of the attack on the Germans, during which they were driven from the trench. He then had the opportunity to secure the candlestick by dislodging it from its place on the piano, where it was attached with screws. This souvenir will probably be placed on view in the window of a Winchester store.

Miss Leah Cowper was kept from the telephone exchange on Thursday on account of illness.

## ANOTHER MILITARY CAMP

A number of prominent Chicago business men, it is said, will attend the training course of two weeks soon to be offered at Camp Pershing near Camp Taylor. The course will be shorter but will be modeled on the instruction given at Plattsburg. With the zest gone which the fact of the war gave it will take even more than the general amount of patriotic enthusiasm for mature men to leave business life for special military training.

Boys' corduroy suits with a nice belt, \$6.00 to \$10.00; some have 2 pair of pants at Tomlinson's.

## ARE VISITING RELATIVES

Mrs. Kenneth Wood and Mrs. James Jolley are visiting with relatives in the city this week. Both of their husbands are in France. They are visiting at the home of their aunt, Mrs. Joseph Ludwig on South East street. Mrs. William McCurley on South Main street, their Uncle Harry Summers at Diamond Grove cemetery. They are also granddaughters of J. M. Summers.

## THRIFT FOLK

The pleasantest people to be with, take it all in all, are the Thrifty People. They live well, but do not spend all they make. They are contented, because they have secured themselves against want. They do not embarrass their friends by borrowing. They are wholesome. Join the Order of Thrifty Folk! START A SAVINGS ACCOUNT!

## THE DUKE OF GRAFTON DEAD

LONDON, Dec. 5.—The duke of Grafton, head of the Fitz Roy family, and a retired general in the British army is dead. He was 97 years old.

Augustus Charles Lennox Fitz-Roy, seventh duke of Grafton, was born in 1821 and entered the British army in 1837, becoming colonel of the Coldstream guards and retiring with the rank of general in 1881. He served in the Crimean campaign. His heir is the Earl of Euston.

## BUY WAR SAVING STAMPS.

WASHINGTON, Dec. 5.—State directors of war savings were requested by Secretary McAdoo today to urge the public to fill promptly pledges for the purchase of war savings and thrift stamps and to assume new pledges.

"The government's monetary requirements were never greater nor more pressing than they are today," said the secretary's appeal. This is not a time for us to relax our efforts and the treasury department is making plans for larger and even more important work during the coming year.

## AUTHORIZE INVESTIGATION.

WASHINGTON, Dec. 5.—As an immediate result of the economy agitation the senate late today adopted without objection, a resolution by Chairman Reed of the public buildings committee, authorizing an investigation of expenditures and contracts for federal buildings. Its principal purpose, Senator Reed said was to inquire into expenditures of the housing committee, principally in Washington. Director Edlitz probably will be the first witness next week.

## NEW ART LEAGUE FORMED.

CHICAGO, Dec. 5.—The Illinois Art League was formed at a meeting here tonight in the interest of legalizing boxing in Illinois. This league will frame a bill, which the officials hope will meet with the approval of the state legislature. Several Chicago Athletic clubs and downstate organizations are back of the move.

## LOWDEN REFUSE TO TAKE ANY ACTION.

CHICAGO, Dec. 5.—Governor Frank O. Lowden said today that he would not reprieve or commute the sentence of Lloyd Bopp, convicted of murder of Policeman Herman Malow of Oak Park, who was sentenced to die on the gallows tomorrow morning.

## GEORGE J. GOULD UNDERGOES OPERATION.

NEW YORK, Dec. 5.—George J. Gould, capitalist and yachtman, who underwent an operation for gall stones in a hospital here yesterday spent a restful night and was believed today to be on the road to recovery.

## MANUFACTURERS FORM EXPORT ASSOCIATIONS

Plan to Carry Products of United States to Every Nation on Earth—Trade Invasion of Other Countries to Begin When Normal Peace Basis is Reached.

WASHINGTON, Dec. 6.—American manufacturers are rapidly forming export associations which plan to carry the products of the United States to every nation on earth, to create and enlarge demands for goods "Made in America" and to furnish cargoes for the American merchant marine to transport over the seven seas. The trade invasion of other countries will begin in earnest, when Europe has been supplied with food and reconstruction materials and the world gets back to a normal peace basis.

To avoid collision with provisions of the Sherman anti-trust act and the Clayton law, the new associations are filing statements of their purposes with the Federal Trade commission, taking advantage of the Webb bill permitting such combinations solely for the purpose of export trade. This act enables Americans to combine their strength to compete successfully with similar combinations in other countries. Up to the present, 52 statements have been filed, embracing combinations of machinery and tool makers, paper makers, lumber manufacturers and general exporters.

As a general rule, the combinations have been effected along the line of trade associations—that is, all manufacturers in the producing of a certain article or series of articles are banding together, somewhat along the lines followed by the Germans in pushing goods to all corners of the earth before the war. Some experts believe that this system is wrong and that the combinations should be effected along the department store idea—that is, that each combination should include one or two manufacturers of each article and that the association should be able to furnish everything from a pin to a locomotive. They argue this system would save much expense in maintaining salesmen and branch agencies and that just as strong organizations can be effected as under the other plan. Advocates of the one-line-of-business idea contend, however, that their system, which sends out highly specialized men to sell one article only and which allocates all orders among the manufacturers embraced in the association, makes the stronger combination to meet foreign competition only.

**Present Control of Raw Materials**  
Officials who have studied the problem think the danger of an outgrowth of these export associations similar to the great metallgesellschaft of Germany which controlled metals and metal products in all parts of the world both in production and distribution, is eliminated by a provision of the Webb bill which prohibits any exporters' association from engaging in importing activities. This is designed to prevent, or make undesirable, control of raw materials. It also is provided that the acts of the combinations must not be in any way in restraint of trade within the United States, the Federal Trade commission having continual supervision over their activities and each individual manufacturing or jobbing member of the association being amenable to the Sherman and Clayton acts insofar as his domestic business is concerned.

The Bureau of Foreign and Domestic commerce is prepared to give aid to the combinations, in the way of statistical and trade information about foreign markets. Additional commercial attaches and travelling agents are being sought by the bureau to handle the expected increased volume of American business and a movement is under way with the backing of the Department of Commerce, the Chamber of Commerce of the United States and other organizations, to secure more consuls under the State department, part of whose duties would be to assist in this work.

**Bankers Co-Operating.**  
Owing to the existence of long-term credits custom in foreign markets, especially in South America, which were inaugurated by the Germans and English, it will be necessary for the American exporters to have an agency for the quick discounting of trade acceptances and similar documents of indebtedness. American bankers, awake to this need, are moving hand in hand with the manufacturers—even a few steps ahead—and are establishing branch banks in South America, the West Indies, Italy, Denmark, Russia, China, the Philippines, the Straits settlements, the Dutch East Indies, British India, Japan, Panama, Great Britain and other countries where it is expected the export associations will carry the products of Yankee ingenuity and a civilization.

With all this preparation accomplished and much more about to be begun, there remains one considerable problem for the American merchants to overcome before they can make any progress in foreign markets. This is shipping.

Withdrawal of all merchant vessels from normal trade routes and placing of them under absolute control of the Shipping board under the stress of war necessity, makes it impossible to get products to foreign buyers until some tonnage is released by the board for normal trade purposes. The situation in Europe regarding food and reconstruction material is such that the board desires to retain control of every vessel until the emergencies have been passed and it has been declared in some quarters that at least two years must elapse before all the abnormal needs of the world can be supplied, even with the continual use of all existing bottoms. However, a plan may be

evolved by the division of operation of the Shipping board under which after all vessels have been used for several months exclusively in the food carrying to Europe, a proportion may be released to carry cargoes to other parts of the world.

## SUIT TO PROHIBIT ISSUE OF ROAD BONDS

SPRINGFIELD, Ill., Dec. 5.—The Illinois supreme court will pass upon the constitutionality of the \$60,000,000 bond issue voted by the people at the election of November 5 for the construction of hard roads in the state, the interest and principal of the bonds to be paid entirely out of the money received by the state for licensing automobiles.

In order that there shall be no doubt regarding the power of the state to issue these bonds, a friendly suit will be instituted in the Sangamon county circuit court to enjoin the state from issuing these bonds in order that the case may be taken to the Illinois supreme court and that body decide if the issue is constitutional.

The suit will be brought by a taxpayer who will be determined upon later and the proceedings will be instituted by Greene and Risely, attorneys of Mount Carmel. Judge Albert B. Rodenberg, assistant attorney general will handle the case for the state.

## SUBSTITUTE FOR

Washington, Dec. 5.—The senate today adopted as a substitute for the McKellar civil service retirement bill a measure offered by Senator Pomerene of Ohio by which the cost of pensions for retiring employees would be paid partly by the employee. Under the Pomerene bill funds to put the pension plan in effect would be deducted not to exceed eight per cent from the salaries of persons in the classified civil service who would be eligible for retirement at the age of 70 years.

## SPAIN FAVORS LEAGUE

Madrid, Wednesday, Dec. 4.—(By The Associated Press.)—The question of a league of nations is receiving much attention in Spain. At the last meeting of the outgoing cabinet the ministers were unanimous in declaring their absolute adherence to President Wilson's idea on the subject.

As no official invitation has been made to the Spanish government to give its ideas on the question the government has been unable to do more than form a special committee to study Spain's entry into a league of nations.

## ENTIRE TURKISH FLEET IN HANDS OF ALLIES.

LONDON, Dec. 5.—The entire Turkish fleet is now in the hands of the allies, the admiralty announced today. They were interned at Constantinople.

## PERU ASKS U. S. BANKERS FOR LOAN.

LIMA, Peru, Dec. 4.—It is reported that Peru has asked American bankers for a loan of approximately \$33,600,000.

## WITH THE COLORS

From Private Henry Ricks.

The following letter has been received by Mr. and Mrs. John Ricks of 738 Allen avenue, from their son, Private Henry A. Ricks, now with the United States marines in France:

Nov. 11, 1918.

My Dear Mother and Father:  
I am a wanderer now, dear folks, and this is the first time for over a month that I have had a chance to write. I don't suppose this will be a very intelligent letter because this place where I am is a mad-house, in fact everything is in the height of excitement because of the good news of peace and victory.

I hope everyone is as happy as I am and also healthy. I have been on the front for over a month and in that time I was over the top twice and am now back in the hospital recuperating from sickness caused by exposure. I am up and around now and will be back with my company in a couple of weeks. The only thing that bothers me is my stomach and kidneys. I am troubled with indigestion a great deal.

I must close now, so keep well and happy for I will soon be home. Love to all and a great big kiss for my little girl.

Your loving son,

Henry.

49th Co., 5th Regiment, U. S. Marine Corps, American Expeditionary Forces.

From Privt. Geo. E. Hanning.

The following letter was received Friday, Nov. 29 by Mrs. Thomas Newell of Ashland, R. R. 1, from her brother, George E. Hanning, who is with the American Expeditionary Forces, Oct. 26, 1918.

Dear Sister:

Well as this is my birthday, I thought I would write you a few lines, but don't be alarmed when I tell you I am in a hospital, well back of the lines. I have been on the front for the last twenty days. I am just back here now recuperating for a while. I got through without even a scratch, but I was weak and run down, but I will be back on the job again in a few days. I guess all of you thought I was lost, but I certainly had no time to write while on the front. I wrote a letter home yesterday. I haven't heard from the states since I've been in France, only those transferred letters from Camp Beauregard and Stuart. One was from Aunt Kate H. and one from you, telling about Tom selling his hogs. They certainly are worth some money now. I forgot to ask if Dad has sold his. He had a nice bunch when we left. I suppose you heard about George Pettit.

# We Are All Ready For Christmas Shoppers

There is going to be more real sensible buying this year than ever before; not that people will overlook purchasing gift articles of a purely ornamental nature, but that the experiences of the past year or two have taught that really useful articles are decidedly proper gifts. We have prepared accordingly.

## REHEARING GRANTED IN THE OREAR CASE

Supreme Court Decides to Hear  
Further Evidence as to Claim  
of Resulting Trust.

The litigation in the already famous Orear-Browning estate case has not been concluded as the supreme court has granted a petition for rehearing. This case which relates to the property of the late D. R. Browning estate, is often referred to as the Orear-Browning case, altho the recorded title of the suit is Sallie Browning Orear vs. Farmers State Bank & Trust Co. et al. Notice that the supreme court had granted the petition for rehearing was received yesterday by Bellatti, Bellatti and Morarity. The defendants represented by Wilson & Butler appearing for the Farmers' State Bank & Trust Company and Worthington & Reeve for other defendants, now have ten days in which to file a reply. The petitioners for rehearing will have five further days for closing their argument.

**Finding Made October 21.**  
The supreme court finding which was in favor of the defendants in the original suit was made October 21. Judge Stone delivering the opinion. In that finding the court declared that a partnership between D. R. Browning and Mrs. Sallie B. Orear had not been proven and, the opinion then went on to say that funds belonging to the Browning family passed

into the hands of D. R. Browning, but that since the question of a resulting trust had not been raised by the complainants in the case, that the court was not called upon to pass upon that phase of the question.

In a petition for rehearing it must be alleged that the court has misapprehended or overlooked material points or matters and then some proof must be presented to indicate this has been done. So Messrs Bellatti, Bellatti & Morarity in their petition for rehearing declared:

"We think the court misapprehended the scope and purport of the bill of complaint in the opinion that on page three of the opinion the court says: 'The complainant's bill does not set out facts showing or tending to show a resulting trust nor does said bill seek to establish a resulting trust.' Further the petition goes on to say, quoting from abstract, that 'the bill sets forth the fact that the complainant and her brother, D. Rees Browning, were equal partners and that the land described was purchased and paid for with their partnership funds and the title taken in the name of D. Rees Browning.' It is the claim of the petitioners that the law which applies in this situation says that where real estate is purchased with partnership funds belonging equally to the two partners and the legal title thereto is conveyed to one of the parties, a resulting trust arises in favor of the other partner for an equal one-half interest in such real estate.

The petition further quotes a paragraph in the original bill in which it was maintained that an equal one-half of all the money paid out in the purchase of lands as above described was money belonging to Mrs. Orear and altho the legal title to the lands was by the deeds vested in D. R. Browning, yet Mrs. Orear became the beneficial and equitable owner of an undivided one-half interest in the real estate.

### Direct Issue Claimed.

In answering the defendants denied that one-half the money paid out in the purchase of lands belonged to the complainants and denied that when such lands were purchased she became the equitable owner of a one-half interest. In the petition for rehearing it was suggested that the court had overlooked the paragraph quoted above and the answer of the defendants thereto, and overlooked the fact that the paragraph and answer make a direct issue as to the ownership of the purchase money without any reference to the source from which the money was derived, whether from partnership operations or from the estate of the deceased aunt, or

whether a part of the money was derived from partnership operations and part from the estate of the deceased aunt.

The petitioners further suggested that it is not material that evidence should show the source of money used but only that the money used was the money of the partner's claiming a resulting trust. It is the further claim of the petitioners that all the complainant was required to do was to show that one-half of the money that was invested in the purchase of the land was money belonging to her and was in the hands of her brother and was invested in the land and the legal title taken in her brother's name. It was in no wise necessary that she should show that the money so invested was derived from partnership operations.

**Resulting Trust Main Point.**  
The petitioners also suggested that the court in stating that "the bill does not seek to establish a resulting trust" overlooked or misapprehended the scope and purport of the bill; that the facts stated in the bill make a case seeking to establish a resulting trust only; that no other claim could be predicated on the facts stated except the claim of a resulting trust.

Further the petitioners suggested that the court was under a misapprehension as to the allegations of the bill in intimating that there was a variance between the allegations of the bill and the proof that the money or any part thereof came from the estate of the deceased aunt.

It is also suggested by the petitioners that the court seemed to have overlooked the law as to what is necessary in order to prove a partnership. The law on this point quoted says: "Written articles of agreement are not necessary to constitute a partnership but a partnership may exist under verbal agreement or may be implied from circumstances." Based on these statements the petitioners fully said that it appears from the opinion "that the court did not examine the evidence to ascertain and determine whether or not the evidence established a resulting trust and that it will now appear to the court that it misapprehended the scope and purport of the bill in that respect." So the court was asked to grant a rehearing in the case, examine the bill and evidence and determine whether or not under the allegations of the bill and the evidence in the case, a resulting trust arose in favor of the complainant in the bill.

From the fact that a rehearing was granted it may be assumed that the court on further consideration conceded that one or more of the points mentioned had not been given due consideration and that the case should be taken up and heard on its merits.

## The Farmer

Do you know that the man with 40, 80, or 160 acres of land has one of the best and safest investments in the world? He is the Chief Executive and Personal Representative of his estate and his table groans with the luxuries that the millionaire in his palace would envy; for there is the fruits in season, and vegetables without limit or stint and cereals the whole year around; yellow legged chickens, turkey, pig and lamb and beef ever sweet and fresh with a flavor that cannot be bought in the best market, yet, it is the farmer's daily fare.

There are no certain hours that he must be at his post or be considered tardy, there is a constant change of scenery and work that keeps him fresh and vigorous; there is time for study and recreation and he can go to town, a picnic, or to the fair without the thought of his business stopping or being neglected.

He has a safety in his investment that there is in no other business for his land cannot burn up or blow away or rust out but gets more valuable with time and cultivation.

If you want a farm, come and see me.

**S. T. Erixon**

## A WIRELESS OPERATOR'S WAL FRONT STORY.

Charles D. King, a wireless operator with the American forces, has written his father, J. R. H. King, an extensive and interesting description of affairs at the front. The soldier, who is twenty years of age, is serving with the 11th balloon company of the third American army in France. His father, who is an attorney at law in Wichita, and now making an extended visit abroad for many years a Jacksonville resident. The letter is lengthy and will be published in several installments.

American Expeditionary Forces.  
Oct. 22, 1918.

Dear Father and Brother—

You are both wondering I suppose just why I haven't written to you for some time. It is because there was no opportunity available nor was there any stationery which I might write. You also know probably by this time that the Yanks have been rather busy with the Germans for a long time. I have been at the front for the past two months now and have been busy all the time and having participated in two drives against the Hun. So these are the reasons for my not having written sooner. Your letters as well as the papers were received in good condition and I certainly enjoyed all the news from home. I haven't had the opportunity of looking thru the magazines yet but hope to read them in the near future. It takes six weeks for your letters to get to the front and I have been wondering if you receive my letters in less than that time. I hope so anyway as it makes such a long time between them when there is no opportunity to write home. Now—I will endeavor to answer some of the questions that you have asked me in the letters of the past.

In regards to money—there is no use for money over here, at least surplus money, so there is no need of your sending any to me. Thanks just the same.

The American money must be exchanged over here but in a good many cases it can be used the same as French money without an exchange at the bank or Exchange. The French standard in money business is the Franc. One franc is—about 17.4-5 c in American money. A dollar is worth 5 francs; 3 centimes is French money; five centimes—one cent; 50 centimes—1/2 franc.

No we have not been transferred to a battleship as was supposed but we are acting on good old "terra firma" as the Latin goes. No I have not gone to officers' training school as I failed in Virginia on my heart. I have not had the opportunity over here to take the exams again as yet and perhaps I will not. At present I am a radio operator in my company, and have found the work to be very interesting. This will probably be my work for the duration of the war. There are three radio operators in the Co. and we were all given two weeks course in radio school in one of the largest cities of France. The camp to which we went was larger than any other that I have seen in the States and I believe is the largest over here. It is larger than the States and I believe is the largest one over here. It is larger than Funston or any other camp in the States. This is an American camp too.

You spoke in one of your letters of the intense heat during the summer months. France was very cool all summer, except Southern Sunny France where it was severely warm. It is raining over here most of the time. The sun don't shine often and I don't really believe that it has shone more than six or seven times since we arrived in France. The days are damp and the front is covered with mud nearly all the time. It is a very disagreeable climate. The trenches are as a rule very muddy all the time. I have seen them when there was from 6 inches to 1 foot of mud in the trench. Boards are laid on top of this mud to keep the men out of the wet and mud. I will describe a certain trench to you which the Germans occupied since 1870 but which they do not occupy now.

The Yanks came over and Fritz deserted his trench. He from all appearances intended using it all winter as his home but he soon changed his mind as well as his location. At least we were using this trench once. The trench has a regular board walk in the bottom. It is about 12 feet deep, 4 feet wide at the top and about three feet wide at the bottom. On the sides of the trench are many small logs standing erect and in between are many small logs standing erect and in between these logs are interwoven many twigs and branches. It is a very neat piece of work and the weaving serves as walls of the trench to keep out the dampness of the earth. On one side of the trench at intervals of about 30 feet are machine gun nests which were used by the Germans not so long ago. These are in a rather half moon or semi-circle shape and are dug two feet deep. In some of these nests there are still some machine gun belts full of German ammunition which is very similar to our ammunition. A few broken machine guns are still lying around. Another peculiarity of the trench is that it is very creeked or winding. And still another peculiarity of the trench is the manner in which the dugouts are constructed. I will describe to you one of them which we have used as a radio station at one time. The dug-out's entrance begins at the bottom of one side of the trench, which I have told you is about 12 feet below the earth's surface. The entrance is a shaft made of boards and the opening is about

3 feet square. Steps lead down this shaft into the dug-out proper.

The dug-out is a rectangular room with dimensions something like 12 feet by 6 feet deep. For the ceiling there are two layers of ceiling there are two layers of heavy logs and besides this there is about 10 feet of solid rock between the earth's surface and the ceiling of the dug-out. This is sufficient to keep out quite a large shell but I'll not say it will hold out any larger than a 9-inch. However, it is a rather protective place to say the least. The Germans appear to make all their dug-outs very protective. I have seen some that are from 25 feet to 40 feet under-ground. All the German dug-outs are very substantial. The Americans get around this substantially all right by throwing in a wave bomb, the results of which you can imagine for yourselves.

Now for the interior of this Hun dug-out—the walls are made of cement, the floor is crushed rock and dirt. The Germans who formerly occupied it had an electric light system and also a small German stove which kept the place sufficiently warm in the winter. So you can readily see just what homes the Huns have had in the trenches. All of the dug-outs that I have seen have been made of this design, and all have been very substantial and protective. So much for the dug-out.

Now for the fire works. Every night on the front there are many fire works displays. Rockets, candles, star shells, flares, and many more various kinds of fire works. The skies are lighted up at night nearly all the time except when rainy weather forbids and even while it is raining there are some displays. These fire works, however are not shot for the fun of it as on the 4th of July but they are all used in the modern war game, and, of course, play their part in the game. All of them have their particular use and meaning. Most of them for signals between the various units on the front but in some cases they serve a different purpose.

In one instance, the Germans, (and possibly the Allied armies) use flares which are dropped from aeroplanes at night. These flares are a little larger than a football and appear as a large ball of flame. They drop very near to the ground and light up a radius of about 200 yards for a period of from 5 to 15 minutes. This enables the aviator or observation posts to observe on the positions. Aeroplanes very frequently drop these at night so they may see something to drop their bombs on. In one instance while in the woods on the front my company had the opportunity of witnessing one of these flares at close range. There were three Hun planes hovering over us at possibly 1,000 feet altitude. One plane came over ahead of the other planes and dropped one of these flares in the woods.

It lighted up the woods as bright as a sunny summer day or even brighter and made the faces of the men about the woods deathly looking. The flare burned for fully six minutes and during this time the other two planes came over us and kicked off a large quantity of bombs (possibly 30 good sized ones and some gas bombs). The bombs missed us a hundred yards and inflicted no casualties. It was a

## TO AVOID RELIEVE INFLUENZA

By Dr. Franklin Duane  
Many people have been frightened by what they have read or heard of influenza. The more you fear the disease, the surer you are to get it. Go right about your business and forget it. As the disease is spread principally by contact thru sneezing, coughing or spitting, many health authorities have advised that everyone wear a gauze, which is daily washed and saturated with a one to five hundred solution of zinc sulphate in water, and then dried before wearing over the nose and mouth. You should avoid crowds common drinking cups and public towels. Keep your strength up by taking lots of exercise in the open air and plenty of nourishing food. If you have any of such symptoms as chilliness, nasal obstructions, flushed face, headache, feverishness, restlessness, weakness or irritating cough, give up work at once and go to bed. This will save your strength to help overcome the disease. Put your feet in hot water for fifteen minutes. Thoroughly loosen the bowels with some such physic as Dr. Pierce's Pleasant Pellets. Drink principally of hot lemonade and then cover up with plenty of clothes in bed so as to get a good sweat. When sweating is free and the fever reduced take a dose of two Anuric Tablets every four hours, followed by drinking at least a glass or two of hot water. Anuric Tablets help quickly to relieve the soreness of the muscles and bones from which most patients complain and help the kidneys flush out the poisons. To relieve nasal obstructions and excessive discharge from the nose, probably nothing is better than such a mild, soothing, antiseptic wash as Dr. Sage's Catarrh Remedy. It will give great relief. Employed as a gargle, in same strength as made up for use in the nose, and as hot as can be borne, it quickly arrests soreness and dryness in the throat.

Influenza weakens the patient's resistance to disease, so that there is danger of bronchitis and pneumonia developing. To combat this tendency and fortify the patient's strength insist that he keep in bed at least two days. Probably nothing will at this stage hasten the recovery and strengthen the patient more than an iron-tonic tablet called "Iron-tic" or that well known herbal tonic, Dr. Pierce's Golden Medical Discovery, which has been used by thousands in the past two generations.—Adv.

very lucky night for the artillery which was near a regiment of engineers which were in the woods at that time, an ammunition dump close by and our company. The gas alarm was given by the engineers and every one donned his gas mask but the gas did not reach us as the wind was blowing the wrong way.

For the past three nights he has bombed the American lines but has been rather unsuccessful in his range. Enclosed you will find a clipping from the New York Herald, Paris Edition, which gives one incident of his poor bombing expeditions. I may also state at this time that I witnessed the other day a large German bomb that did not explode. It was so large that it would amaze one. I had seen many of the Hun's bombs which he had dropped and which did not explode but this was the largest that I have seen. It was 13 and 1/2 feet in length and 8 inches diameter.

There had been several of them dropped on this village which was within the war lines and the others had exploded each bomb having made a hole in the earth

nearly fifteen feet in depth and not less than twenty feet across the top of the crater. Quite a cavity, don't you think, and I want to say that it has not been exaggerated either. Another im-

plement of destruction that was in the village was a 14-inch (42 cm) "Baz" shell. It had not exploded and had been dug out of the ground where it had fallen.

(To Be Continued.)

## Washing --- Washing

THAT'S ALL WE DO—  
EXCEPT IRON

Are you still trying to do your own family washings at home, particularly now when every precaution should be taken to prevent illness? We can do them cheaper, in a satisfactory manner and you avoid all risks.

## Boys Know What Mother Wants

Father Should Know What She Needs

If Fathers spent as many hours at Mother's side as children do, they would quickly recognize the cause of her mind and body weariness. Children at play often hear the wish for a Hoosier and its many time and labor-saving features. We therefore say to Fathers: "Heed the Hoosier Christmas suggestion."

But remember that there is but one Hoosier. It is the worthy kitchen helper for your home. It saves health and strength and miles of steps. It places 400 articles within arm's reach. Women sit comfortably while at work. They reach instead of walk.

Make this a Hoosier Christmas. Come now and select one of several models. If another style would suit "her" better, we'll gladly exchange it later. But come now before our limited allotment is gone.

And remember that you need make but a small deposit.

Every wanted convenience is found in the Hoosier—scientifically arranged and of practical construction.

Equally small amounts pay the balance.

STATE ADMITTED TO V. S. AREA FOR DEATHS

Federal Probe Ends With Credit to State—Birth Records Incomplete.

Springfield, Ill., Dec. 5.—As a result of investigations carried out by the United States Bureau of the Census during September and October, Illinois has been admitted to the United States Registration Area for Deaths. Thus ends the efforts of sixteen years to win Federal recognition for Illinois as a Registration State.

chief factors contributing to this success.

The admission of Illinois to the Registration Area for Deaths, means that the Illinois mortality records are now sufficiently complete and dependable to be acceptable to the Federal authorities for their purposes and for the public purposes to which such records are applied. It means much to the public health administration throughout the state and removes the stigma of "Non-Registration State" which so long has been a source of embarrassment to public officials and a reflection on public and official efficiency.

Illinois has not yet been admitted to the Registration Area for Births but it is expected that when the birth records are again

examined next spring that admission will then be secured. In the meantime state health authorities will redouble their efforts to secure full compliance with the law. At the present moment the Division of Vital Statistics is gathering evidence of violations of the law with a view to the prosecution of offending physicians, midwives, hospitals and others who are required to make reports of births. This evidence will be placed in the hands of the attorney general who has agreed to vigorously push the prosecution.

Members of our Christmas Savings Club will please call for their checks. F. G. FARRELL & CO. Bankers

SPECIAL TAX NOTICE

To All Persons interested: Notice is hereby given that the City Council of the City of Jacksonville, Illinois, has presented to the County Court of Morgan County, its Certificate of final completion and acceptance of the improvement on South West, West Morgan and South Sandy Streets, East and West College Avenues, South Mainvalterre, East Morgan, North and South East, East Court, North Mainvalterre, and East and West North streets, consisting of a street pavement.

The final hearing on said application has been fixed by the County Court of Morgan County, Illinois, for the 23rd day of December, A. D., 1918, at the hour of 10 o'clock A. M. or said day; that all objections to the said Certificate and application must be filed in said court before the time set for such hearing.

Dated this 25th day of November, A. D. 1918.

H. J. Rodgers,  
Joshua Vasconcellos,  
W. P. Widmeyer,  
Perry J. White,  
J. Edgar Martin,  
Members of the City Council of the City of Jacksonville, Illinois.

Names To Be Placed On Soldiers Monument

The Journal will print from day to day a list of names of soldiers of the War of the Rebellion that has been compiled by the committee in charge. The purpose of its publication at the present time is that relatives or friends of men from this county may be enabled to note any omissions. Major C. E. McDougall will make additions or corrections if parties interested will call on him within the next two weeks. After that date it may be too late to make changes. Following is a part of the list:

UNION BAPTIST MISSIONARY SOCIETY

The Women's Missionary Society of Union Baptist Church met with Mrs. Charles Wood, after partaking of a good substantial dinner, prepared by the hostess and her daughter-in-law, Mrs. Earnest Wood. The ladies had a very interesting program. Mrs. Theodore Lukeman had the subject, "Home Remedies" and the following ideas she gave from her own experience.

1. Fresh air.
2. Hot water will relieve most ordinary pains; also good for sore throat.
3. Onion poultice and syrup for colds.
4. Mush poultice with mustard for pneumonia.
5. Ironing for pleurisy or severe pains in back or sides.
6. Witchhazel for bathing tired feet.
7. Amonia and coal oil cure corns and they don't come back.
8. Anti-fragestine on cotton for burns.

SHE SUFFERED FIVE YEARS

Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound

Key West, Fla.—"For five years I suffered with irregularities, with terrible pains and an awful weakness in my back. The doctor gave me different medicines but they did me no good. A friend asked me to try Lydia E. Pinkham's Vegetable Compound and I found it to be the best medicine I ever tried because it made

me well, and I can now do my house work. I am telling my friends about it." — Mrs. J. M. Camus, 726 Caroline St., Key West, Fla.

Many women at some period in their life suffer ailments peculiar to their sex and which in most cases may be readily relieved by this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound, just as Mrs. Camus found it helped her after suffering for years and trying everything else in vain.

If you have any annoying symptoms you fail to understand, write Lydia E. Pinkham Medicine Co., Lynn, Mass. The results of their 40 years' experience in advising women on this subject is at your service.

"Thermophore"

The New Type Room Heater

Have you Seen it?

This is the newest type of room heater. It has been thoroughly tested and its efficiency and reliability proven. Its first cost is low and the expense of operating it is surprisingly low. The "Thermophore" operates on the principle of the open fireplace. The heat does not come from the flame direct but from a large cone which is kept red hot by the gas flame, this cone quickly radiating heat to all parts of a room. It is well made and will last a lifetime.

Other Heaters

We have several of the old style gas room heaters, suitable for bath rooms or rooms where but little heat is required and that but for a period of a short time. These are specially priced at

\$3.75

We shall be glad to demonstrate these heaters for you. Every home should have one. They are convenient and economical—no building of a big fire when but a little heat is needed, or heat for but a short time.

**See those special \$3.50**  
**sweaters at Tomlinson's.**

**COMMERCIAL RELATIONS**  
**HAVE INCREASED**

Buenos Aires, Nov. 26.—The  
commercial relations between  
Brazil, Uruguay and Argentina  
have increased so rapidly during  
the last two years that steam-  
ship companies are finding it im-  
possible to furnish vessel enough  
to take care of the trade.

Since European and American  
markets have been closed to  
these three South American re-  
publics, they have found that  
they can furnish each other with  
most of the products formerly  
sent away to some other place.  
Plans are making to increase the  
shipping facilities between them  
as soon as possible.

**"TELL ME HOW**  
**TO BE BEAUTIFUL"**

Get Rid of All Pimples, Black-  
heads and Skin Eruptions. Pu-  
rify the Blood with Stuart's  
Calcium Wafers.

**TRIAL PACKAGE MAILED**  
**FREE**

Stuart's Calcium Wafers Surely  
Do Give a Lovely Complexion.

The reason why Stuart's Calci-  
um Wafers beautify the skin is  
their natural tendency to seek the  
surface.

The wonderful calcium sulfide  
is one of the natural constituents  
of the human body. You must  
have it to be healthy. It enriches  
the blood, invigorates skin health,  
dries up the pimples and boils,  
eczema and blotches, enables new  
skin of fine texture to form and  
become clear, pinkish, smooth as  
velvet and refined to the point of  
loveliness and beauty. This is  
"how to be beautiful." Stop us-  
ing creams, lotions, powders and  
bleaches which merely hide, for  
the moment. Get a 50-cent box  
of Stuart's Wafers at any drug  
store today.

And if you wish to give them a  
trial send the coupon below.

**FREE TRIAL COUPON**

## BUILDING IN ASHLAND DESTROYED BY FIRE

Building Formerly Used for Meat  
Market Total Loss Wednesday  
Night—Churches Again Closed  
Because of Epidemic—Other  
Ashland News Notes.

Ashland, Dec. 5.—Mr. and Mrs.  
O. N. McDaniel were Sunday  
guests of Frankie McDaniel.

The fire department was called  
out Wednesday night to the busi-  
ness house, formerly David Mid-  
dow's meat market, which had  
caught fire. It was a total loss.

Miss Mildred Andrew is very  
sick.

Mrs. Newton Ford, died at her  
home near here Tuesday, Decem-  
ber 3, 1918, after a long illness.  
Funeral and burial were held  
Thursday. She leaves her husband  
and one daughter, Mrs. Alma  
Shirreff.

Mrs. Mary Ryan was taken to  
a Springfield hospital last week,  
and is in a critical condition.

John Nix visited his son Ed-  
ward Nix and wife at Virginia  
this week.

Mr. and Mrs. Harry Lohman  
are here.

Miss Helen Rieker is on the  
sick list.

Misses Eula and Glenna Bailey  
are ill with influenza.

The churches have again been  
closed on account of sickness.

Mr. and Mrs. Edward Nix spent  
Sunday at the home of Newton  
Nix.

Mr. and Mrs. N. C. Sinclair, and  
Mr. and Mrs. D. S. Kooztz spent  
Sunday at the home of W. D.  
Harding.

Rev. C. A. Burton has been  
quite sick the past week.

Vesley Holmes is in the hospi-  
tal at Springfield, where he will  
undergo an operation for the re-  
moval of a kidney.

Mrs. Samuel Ray has been very  
sick the past week.

Mrs. Wm. Gist went to Wis-  
consin Tuesday called by the  
serious illness of her daughter,  
Mrs. Helen Johnson.

**DEATHS AT SOLDIERS' HOME**

Records of deaths at the Illinois  
Soldiers' & Sailors' Home, Quin-  
cy, Ill., during the month of De-  
cember, 1918, are as follows:

Gaverty, William L., Co. A,  
96th Ill. Inf., age 84.  
Hamilton, John W., Co. G, 7th  
Ind. Cav., age 76.

Johnson, Fred F., surgeon, 29th  
Ill. Inf., age 80.  
Newhard, Allen, Co. B, 47th  
Pa. Inf., age 75.

Smith, William L., Co. C, 62nd  
Ill. Inf., age 70.  
Atherton, Daniel V., Co. D,  
153rd Ill. Inf., age 72.

Bennel, William A., Co. F,  
55th Ill. Inf., age 74.  
Camp, Samuel, Co. F, 5th Ill.  
Inf. S. A. W., age 66.

Dalton, Kingsbury, Co. F, 4th  
Ill. Inf., age 69.  
Dixon, Henry, Co. E, 27th Ill.  
Inf., age 74.

Jackson, Andrew, Co. M, 8th  
Ill. Inf. S. A. W., age 72.  
Stevenson, Virgil, Co. B, 26th  
Ky. Inf., age 70.

Young, Henry, Co. D, 29th W.  
S. C. Inf., age 72.

**ARENZVILLE**

Wallace Hustcher of Jackson-  
ville was a business caller Tues-  
day.

Mr. and Mrs. Gerry Aberheart  
spent a few days with relatives at  
Chestnut, Ill.

Mrs. M. B. Shrewsbury depart-  
ed for East St. Louis Wednesday  
for a visit with her son, Ed  
Shrewsbury and family.

Mrs. Clara Long returned from  
a several weeks' stay with rela-  
tives in and about Jacksonville.

Mrs. Lotte Malone of Jackson-  
ville came Wednesday to be en-  
tertained by Dr. George Crum  
and family.

Eddie Green and wife came  
Wednesday for a few days' visit  
from Smithstown, Ill. Sunday  
was Eddie's birthday and he was  
surprised by the arrival of a 6 1/2  
pound son.

Mrs. Peter Zahn was at Jack-  
sonville Tuesday consulting a  
doctor.

R. V. Hahvey and family, John  
Briggs and family, Miss May  
Sensel, Oscar Nieman and family,  
Ed Wood and family, Bart Wood  
and family, are victims of the  
prevailing fashionable influenza.

It is worse than it has been.  
George Unland and wife and  
son, Harry, of Meredosia, spent  
Sunday with H. Zahn and wife.

Julius Kraft of Rock Island  
spent a few days with his math-  
er.

William Zahn was a business  
caller from Concord this week.

Mrs. George McElroy recently  
returned from Springfield.

Henry Zahn and wife died  
with their son Albert and wife  
Thanksgiving day.

Mrs. John Schwer spent a day  
with her daughter, Mrs. Arthur  
Schmitt recently.

**Mufflers 50c, \$1.00 and**  
**\$2.00. Tomlinson's.**

## RETURN OF REFUGEES PITIFUL SPECTACLE

Affecting Scenes Mark Return of  
French Refugees to Homes  
They Left Four Years Ago—  
Belgian Relief Commission  
Readers Aid.

EVIAN, France, Dec. 7.—(Cor-  
respondence of the Associated  
Press.)—The return to France of  
the women, children and old men  
who were sent out of that part of  
France, occupied by Germans for  
more than four years, presented  
a pitiful spectacle. Many of these  
refugees were little tots whose  
fathers and mothers had been  
taken away by the cruel Boche to  
work in Germany or behind the  
fighting lines. Others were or-  
phanas.

**Old and Young in Line**  
Twice daily the affecting scenes  
of their return were enacted here  
when the trains bringing them  
through Switzerland bringing 600  
to 700 repatriates back to the be-  
loved soil of France. With them  
were Belgians who came from  
parts of Belgium then occupied by  
the Hun. Much was done to re-  
lieve the sufferings of these poor  
people by S. S. Howland, repre-  
sentative of the Belgian Relief  
commission stationed here, and by  
Mrs. Howland, his wife.

Describing the scene of the re-  
turn of a trainload of refugees,  
Mr. Howland writes:

"Slowly, the long line came to-  
wards us, the old and the young  
about equally divided—alas, but  
few of middle age, for the Ger-  
mans had used for such and would  
not let them go. While few showed  
traces of actual destitution, we  
knew that but a small number  
possessed more than the clothes  
they wore and what the hand bags  
and bundles they carried contain-  
ed."

"They were not emaciated, but  
their faces were worn, sometimes  
anemic. How could they be other-  
wise after the years of constant  
suffering and continued horrors  
they had endured, with no hope  
of release before them but victory  
for the allies, or perchance the  
good fortune to be enrolled in one  
of these little bands of repatriates."

"Now and again someone would  
rush out from the sidewalk to  
greet a relative or friend recog-  
nized after years of absence. But  
though such instances were rare,  
they served to buoy up the hopes  
of the rest that perhaps farther  
along they too would be as fortu-  
nate."

"Two short rests were made  
that the seemingly countless chil-  
dren might be able to keep up.  
Brave little tots they were, hold-  
ing close to their mothers, if they  
had them, or if not to those who  
had befriended them on the way,  
for many were orphans, or had  
had their parents taken away by  
the Germans to work. Perhaps,  
hundreds of miles from their  
homes."

"Inside the great rooms of the  
Casino long lines of tables set  
for supper filled almost the entire  
space. As the repatriates filed in,  
women showed them to their seats  
while others distributed small  
French flags to young and old  
alike—the flag that once more  
they might wave freely."

"Bowls of soup, slices of good  
bread, hot well-cooked meat and  
glasses of red wine still further  
gladdened the hearts of the stranger,  
so that when the orchestra, in its  
gallery began to play well-known  
and cherished French airs—airs  
that had not been heard before  
in all these long years—tears  
streamed down the cheeks of  
many, and of lookers-on as well,  
while hands and voices proclaimed  
their keen delight."

"No man did we see between  
fourteen and sixty unless they  
were palpably ill or crippled, and  
comparatively few women who  
had not long since passed their  
prime. Mothers had been separated  
from sons and daughters drag-  
ged off by the Boche to work in  
factories and mines, even on for-  
tifications to be used against  
their own kin."

"The feast was nearing its end  
when the Sub-Prefect mounted  
the rostrum and began to speak.  
Instantly there was silence. He  
dwelt upon France's love for her  
people, her sorrow for their suf-  
ferings."

"His words had hardly ceased  
when the band struck up the Mar-  
seillaise. The old and young, the  
halt, the blind sprang to their  
feet, trying their best to join in  
the refrain but frequently pre-  
vented by sheer nervous exhaus-  
tion. Sobs could be heard and the  
faces of most of the women and  
of many of the men were hidden  
in the handkerchiefs with which  
they wiped away their tears of  
joy."

**Boys' corduroy pants \$1.50**  
**and \$2.00 at Tomlinson's.**

**ANNOUNCEMENT**

I hereby announce myself as  
candidate for county commission-  
er subject to the Democratic pri-  
mary election.

D. T. Summers.

**RESTRICTIONS AS TO**  
**ELECTRIC LIGHTING**

All restrictions with refer-  
ence to electric lighting in the state of  
Illinois are hereby withdrawn  
as of this date.

M. F. Dunlap,  
Fuel Administrator for  
Morgan County.

## INCREASE SUGAR AL- LOWANCE TO CONSUMER

In accordance with the ruling  
issued by the Sugar Division of  
the Washington office of the Food  
Administration, the certificate  
plan of sugar distribution will be  
discontinued in this state as of  
December 1.

No class of trade will be re-  
quired to have certificates after  
this date, but wholesalers and  
jobbers are to limit sales to their  
customers to a fifteen days sup-  
ply.

It is important that the public  
realize that the withdrawing of  
the certificate plan is based en-  
tirely upon the confidence that  
they will continue on the basis of  
using not more than four pounds  
per person per month. There  
should be no difficulty in secur-  
ing supplies if the consumer and  
public places continue consen-  
sually to follow this rule.

After December 1, it will not  
be necessary for retailers to re-  
port a record of their sales to the  
office of the food administration.

A new retail store may now  
purchase and sell sugar inasmuch  
as no certificates are necessary.

Retailers are expected not to  
sell more than a month's supply  
to any customer at one sale; this  
applies to city customers as well  
as customers living in farm or  
rural districts.

M. F. Dunlap,  
Food Administrator for Morgan  
County.

**Have you seen those new**  
**capas for girls at Tomlin-**

Attorney Thomas P. Reep of  
Petersburg was attending to busi-  
ness matters in the city yester-  
day.

**ALL CHILDREN LOVE**  
**"SYRUP OF FIGS" FOR**  
**LIVER AND BOWELS**

Give it When Feverish, Cross, Bil-  
ious, for Bad Breath or Sour  
Stomach.

Look at the tongue, Mother! If  
coated, it is a sure sign that your  
little one's stomach, liver and  
bowels need a gentle thorough  
cleansing at once.

When peevish, cross, listless,  
pale, doesn't sleep, doesn't eat or  
act naturally, or is feverish,  
stomach sour, breath bad, has  
stomach-ache, sore throat, diar-  
rhea, full of cold, give a tea-  
spoonful of "California Syrup of  
Figs" and in a few hours all the  
foul, constipated waste, undiges-  
ted food and sour bile gently moves  
out of its little bowels without  
gripping, and you have a well, play-  
ful child again.

You needn't coax sick children  
to take this harmless "Fruit laxa-  
tive," they love its delicious  
taste, and it always makes them  
feel splendid.

Ask your druggist for a bottle  
of "California Syrup of Figs,"  
which has directions for babies,  
children of all ages and for grown-  
ups plainly on the bottle. Beware  
of counterfeits sold here. To be  
sure you get the genuine, ask to  
see that it is made by "California  
Fig Syrup Company." Refuse any  
other kind with contempt.—Adv.

## RIDES IN "WHIPPET" TANK

London, Nov. 26.—riding in a  
jolting "whippet" tank, King  
George on a visit to a British  
training camp, took part in a  
sham battle in which fifteen tanks  
made an attack, aided by air-  
planes dropping bombs, smoke  
screens and machine gunning. The

route was over broken ground and  
included a fairly steep slope,  
ditches and several sharp turn-  
ings. Finally the tanks cleared a  
trench with their machine guns.  
Then they wheeled into line, halt-  
ed at the edge of a ditch, and by  
their final dip provided what  
looked like a salute to the king.

#### FORMER RESIDENTS VISITING AT WOODSON

Mr. and Mrs. W. E. Kitcher and family visiting relatives—Woodson News Notes.

Mr. and Mrs. Wilbur Kitcher and family of Lamar, Mo., came Wednesday of last week to spend a few days with relatives here also in Jacksonville. They returned home Monday. They made the trip in their Sedan car.

Miss Lucile Adams is visiting relatives in White Hall.

Miss Clara Bell Megginson returned home Sunday evening from a week's visit with Mr. and Mrs. F. M. Rook in East St. Louis.

Mr. and Mrs. S. J. Baxter spent Thanksgiving day with their daughter, Mrs. Newton Wilson and family near Sinclair.

Mr. and Mrs. M. W. Thompson and children of Prentice visited relatives here a day last week.

Mr. and Mrs. Herbert Owings and little daughter, Miss Grace Ober, Mrs. L. A. Fitzsimmons, Miss Gladys Megginson and Mrs. Steve Shelton who have been flu victims are all reported improved.

Mr. and Mrs. Fred Mansfield of Modesta called on the latter's sister, Mrs. Elmer Orris and family Wednesday.

Mr. and Mrs. B. R. Bishop are spending a few days with relatives in White Hall.

The family of R. C. Megginson has been afflicted with the "flu" but are reported better at this writing.

Mrs. Edward Gallagher and daughter Mrs. B. R. Bishop were Monday guests of the former's sister, Mrs. J. T. Osborne and family Monday.

Mrs. Howard Henry is reported on the sick list.

Rex Ranson shipped a carload of cattle to East St. Louis Wednesday.

J. W. McAllister shipped a carload of Togs to East St. Louis this week.

C. C. Self and son shipped to East St. Louis a car of hogs, Wednesday.

Word received by Mr. and Mrs. J. W. McAllister a few weeks ago from their son, Russel, who is in France that he had been promoted sergeant.

Mr. and Mrs. George Bradford moved to Jacksonville last week. He has a position with the La-Crosse Lumber company. He is keeping the office here this week at the yard in the absence of Mr. Owings who is on the sick list.

**SPECIAL SALE TODAY**  
on fresh oysters at all merchants at 50 cents per quart. Be sure and get your share while they last.

#### FORMER JACKSONVILLE GIRL TO WED

A Billings (Mont.) paper announces the engagement of Miss Margaret Morrissey, daughter of John Morrissey, formerly a resident of this city.

"At a dinner given Sunday, November 24, at the home of Mrs. O. H. Hovda, 205 North Twenty-ninth street, announcement was made of the engagement of Miss Margaret Catherine Morrissey, daughter of John Morrissey, to Forest Ferdinand Cunningham, son of Senator and Mrs. Lawrence Eugene Cunningham of Beloit, Wis.

"Miss Morrissey is the niece of the late Mrs. Kate Pratt of Billings."

The many Jacksonville friends of the Morrissey family will be very much interested in this announcement.

#### PATH OF THE STARS AND STRIPES TRACED

Where the American Flag Has Been and When in One Hundred Forty-one Years.

Following is a schedule of important "first appearances" of the American flag.

1777—June 14—Created by The Continental Congress, in these terms: "Resolved, That the flag of the United States be thirteen stripes, alternate red and white; that the union be thirteen stars, white in a blue field, representing a new constellation."

1777—July 4—First flown to the breeze on a vessel of war, "The Ranger," by John Paul Jones, at Portsmouth.

1777—Aug. 3—First fired upon, on land at Fort Schuyler.

1777—Sept. 4—First carried into action at sea by John Paul Jones.

1778—Feb. 14—First official salute received by a foreign country, France.

1783—First displayed in a foreign port, by the schooner Bedford of Massachusetts.

1790—First carried around the world by American ship Columbia.

1824—First carried through the Straits of Magellan by the merchant ship Endeavor, of Salem, Mass.

1829—First raised in California by Capt. James P. Arthur, a seafarer from Plymouth, Mass.

1839—First carried beyond the Antarctic circle by the pilot boat, Flying Fish, of the Wilkes expedition.

1844—First carried around the world by an American steamship.

1848—First displayed upon the sea of Galilee, by the expedition of Lieut. Lynch.

1853—First displayed in Japan at the landing of Perry's party in the bay of Jeddo.

1861—First raised and kept flying on a public school by the high school of New Bedford, Mass.

1867—First raised in Alaska, on the transfer of that territory from Russia to the United States.

1868—Raised over the Midway Islands, in the Pacific ocean, the first acquisition ever made by our government in this way.

1868—Planted on the summit of Mount Baker, 10,613 feet above sea level, on the occasion of the first ascent of the peak by man.

1871—Carried into the interior of Africa by the Henry L. Stanley expedition.

1873—First raised on the summit of the Andes by a party of American engineers engaged in railway surveying.

1877—Unfurled for the first time in the far interior of China.

1898—First carried to foreign soil by an "Army of Liberation" to Cuba, Porto Rico and the Philippines.

1917—Displayed on a European battlefield for the first time by the American Expeditionary Forces in France.

1918—Carried through liberated Belgium, Northern France, Alsace-Lorraine and Luxemburg, and planted on German soil, there to stay until Prussian military autocracy is not only dead but buried.

#### SCRAP BOOKS AND PHOTOGRAPH ALBUMS

We carry a very complete line. Just the thing for a Christmas gift. Lane's Book Store.

#### JUROR'S ILLNESS HALTS COURT CASE

Mistrial Results in Suit of George Wood vs. Auto Insurance Association — Judge Smith Not Ready with Decrees in Two Divorce Cases.

In the circuit court yesterday Judge Smith and jury heard the evidence in the suit of Thomas P. Reed vs. J. Walton Ward, taken on appeal from a justice court. The case was given to the jury about 5 o'clock in the afternoon and shortly after a verdict was returned in favor of the defendant.

A considerable part of the day was taken up in the hearing of the appeal case of George Wood vs. the Automobile Insurance association of Jacksonville. Near the conclusion of the case C. Mader, one of the jurors, became quite ill and it was not possible to proceed with the case and a mistrial resulted.

Before court adjourned Judge Smith informally instructed Circuit Clerk Boston to transmit statement to the county commissioners that in selecting the jury panel that they should not place thereon any man over sixty-five years of age. The court said that when men over sixty-five were placed on juries there was the greater likelihood of some form of illness delaying the trial. In the case yesterday where illness of a juror made another trial necessary additional expense of at least \$100 was incurred by the county.

#### Chancery

Judge Smith heard the evidence in the suit brought by Mrs. Hattie Cockin against her husband, Thomas E. Cockin, for separate maintenance, and until further evidence is introduced declined to enter a decree. In this case Mrs. Cockin brought suit for separation alleging cruelty. Then cross bill was filed by Mr. Cockin in which infidelity was charged. The complainant in the original bill did not enter appearance to answer the cross bill and order of default was entered. The court, however, was not satisfied with the extent of the evidence introduced.

In another divorce suit, that of Mae Rook vs. Charles Rook, Judge Smith took the case under advisement. It was shown in the evidence that the defendant is in the army service. He was charged with drunkenness in the bill for divorce and because the evidence did not show drunkenness within a recent period of time a case was taken under advisement.

#### LANE'S BOOK STORE for Beautiful Gift Books.

#### JOHN SHEPPARD WAS AMONG THOSE PRESENT

Under the caption "this date in Illinois history" published in the Journal Thursday morning it tells of Morgan county farmers hauling 100 loads of wood to Jacksonville for soldiers' families on December 5, 1863.

John S. Sheppard told the Journal yesterday he remembered that date very well. His father headed the parade which was made thru the business section driving four gray horses to a wagon on which was two cords of wood. John, who was born in 1878 was riding on the wagon with his father on that memorable occasion.

#### WANTED

Load or two of corn. W. S. Cannon Produce company.

#### F. G. Farrell & Company wish to extend an invitation to you to join their 1919 Christmas Savings Club.

**UNEASY ABOUT SON**  
John E. Hall was up from Mercedia yesterday attending to business and visiting relatives and friends. Mr. Hall said that he had not heard from his son, Fred Hall, who is with the army in France since October 23. J. Earl Vasconcellos, however, had a card from Mr. Hall's son written on October 27. Mr. Hall is worried about his son's safety as at the time he last heard from him he said that they were hoping to get in the front line trenches soon.

#### TWO WILLS FILED

The will of Sherman Smith has been filed for probate in the office of County Clerk G. L. Riggs. It bears date of April 6, 1918, with F. H. Bode and C. J. Buhrman as the witnesses. The testator bequeathed all of his property of every kind to his wife and named her executrix to serve without bond. The will, which is entirely explicit, is one of the shortest on file at the court house and comprises less than ten written lines.

The will of John H. Wilker of Mercedia has also been made a matter of record. The deceased, after providing for the payment of debts, funeral expenses, bequeathed all of his property to his wife, Caroline Wilker, to have for her life and at her death to be divided equally among the children, Ella Kupfer, William H. Wilker, Tillie Ommen, Charles H. Wilker, Carl T. Wilker, Emma Ommen and John H. Wilker, Jr. The last two mentioned are named to execute the will, which was drawn March 14, 1916, with H. R. Meyer and J. E. Hall as the witnesses.

#### VICTROLAS and RECORDS. J. P. BROWN MUSIC HOUSE.

**RETURNS TO WORK**  
Willard S. Peak, who for the past year has been working at the government ship yards located at Hog Island, Philadelphia, Pa., has returned to his work after a visit with his mother, Mrs. Mary Peak of South Main street. Mr. Peak will stop at Chicago for a visit with relatives and friends on his way to Philadelphia.

Get a violin, guitar, or mandolin from J. P. Brown Music House.

#### HOWARD OGLE DIED IN FRANCE

Son of Mr. and Mrs. J. B. Ogle of 710 East North Street Succumbs to Pneumonia On October 24—Entrained at Hillsboro—Was with 54th Infantry.

Howard Ogle has made the supreme sacrifice. Word came to his parents, Mr. and Mrs. J. B. Ogle, 710 East North street, Wednesday night of his death of pneumonia "Somewhere in France," on October 24.

Deceased was born August 26, 1886, and had resided in Jacksonville most of his life. He learned the trade of plumber and for a number of years was in the employ of the city water department in that capacity.

After resigning his position with the city he went to Hillsboro where he engaged in business and was located there when he was inducted into service.

He entrained from Hillsboro in June and was assigned to the 54th infantry and was soon sent for overseas service. Mr. Ogle was a member of the Loyal Order of Moose. He was a young man of good character and had a large number of friends here who will regret to learn of his death.

Besides his parents he is survived by the following brothers and sisters: Bennie Ogle, 167th Infantry in France, Harry Ogle Camp Lee, Earl Ogle, Chicago; Edgar Ogle, Jacksonville; Mrs. Ollie Parker, Kansas City, Mo.; Mrs. Robert Stewart, Sinclair; Mrs. Edgar Brown, Prentice; Mrs. John J. Ferry, Jacksonville, and Mary Ogle, Jacksonville.

**LINE-A-DAY BOOKS**  
We have in stock a beautiful assortment of these popular books. Ask to see our leather correspondence outfits. Ideal gifts for Christmas.

**PRACTICAL GIFTS FOR PARTIOTIC MEN ARE SHOWN BY FRANK BYRNS' HAT STORE**

#### EXEMPTION BOARD NEWS

The final classification cards are now being mailed to all registrants who have returned questionnaires. This is done to carry out the directions of the adjutant general and to complete the records of the board.

Miller Weir, who has been ill for a number of days, is now able to be present at the office.

The board has received notification that board members are in due course of time to be discharged from military service. Boards will not be used as labor agencies in securing employment for soldiers returning to civil life, as was suggested some time ago by the provost marshal general.

#### F. G. Farrell & Company wish to extend an invitation to you to join their 1919 Christmas Savings Club.

**ROAD NOW IN GOOD SHAPE.**  
A few days ago mention was made of the bad condition of a piece of road south of the city. It was stated that it was in South Jacksonville but it seems that the bad portion lies in Road District No. 7, just south of the limits of South Jacksonville.

It was reported to the Journal yesterday that residents of the south part of the county could travel the road again with safety and comfort. This is made possible by the zeal of John Wilkinson, commissioner of road district No. 10.

The road was out of Mr. Wilkinson's jurisdiction, he read of it in the Journal, and Thursday he took two four horse drags and fixed the road in first-class shape.

**GENUINE WHITE FLOUR.**  
Makes pure white bread. Be sure to insist on "CAINSON," the "Genuine White Flour." Cain Mills.

#### MRS. EADS HERE.

Mrs. William J. Eads, arrived in the city yesterday from Louisville, Ky., for a visit with relatives and friends. Her husband, Sergeant William Eads, expects to receive a two weeks' furlough and spend Christmas with his wife and parents in this city. They will then return to Camp Taylor, where Sergeant Eads is stationed with the medical corps. It is probable that he will not receive his discharge from service until some time in the spring.

#### CHIMNEY FIRE CAUSES ALARM

Burning soot in a chimney caused the fire department to make a run to the residence of M. H. Carroll, 859 Rout street at 6:20 o'clock Thursday evening. No damage was done and the services of the department were not needed.

#### REAL ESTATE TRANSFERS

## "With the Colors"

Letters of Interest from Morgan County Boys in the Country's Service.

From Edwin E. Waters.

Mrs. T. C. Waters has received the following letter from her son, Edwin E. Waters:

Nov. 6, 1918.

Dear Mother:-

We have just completed a 95-kilometer train ride, then a 12 kilometer hike. We are now some distance from the front, comfortably located in billets at a small French town somewhere in France. We are here for the sole

purpose of getting our motor equipment, such as tractors and trucks. We have been here but a few days. Only yesterday we received part of our equipment. No one knows how long we are to remain here, but we hope not long for all are very anxious to get back to the front and finish the Hun.

These French people are surely great friends of the Yanks. All are anxious to do whatever they can for their comfort. The French madam, in whose billet I am quartered, gave four of us a din-

ner Sunday. 'Twas certainly great and so different from our army mess. Her husband is away at war, but seemingly she and the two children are well provided for. These French people do not have the appetite we Yanks do. They can make a meal out of a loaf of bread and a quart or liter of wine, but when they have company especially Yanks, they load the table down.

Talk about prices I really can't imagine what they charge in the States. Here, quartermaster U. S. government's price for flour is 18¢ per pound. Every thing we buy from the French is very high. We do not mind much for while at the front we could not spend one cent as a result we had several months pay when we arrived here.

The newspaper reports are good, but the Yanks and other Allies continue to drive. They surely have done great work especially the past three months. But everyday the war continues means loss of lives and many men injured. I surely have seen sights. Sometimes I believe the people in the States really know what war means. If we all live to return we can surely tell many interesting incidents.

Mother, I am enclosing a souvenir from France; just a handkerchief. I know you will appreciate some little article from over here. I had a very quiet birthday but at the same time I fully realize that I am getting older but surely will always remember this one birthday so far away. I would like to send several Christmas gifts home but we cannot buy much here, so I'll just send my best wishes next time I write.

We haven't had any mail since Sept. 20th, as we were on the move. We are now six weeks behind with our mail. I had a letter you wrote addressed to Casual Company in August. Received several letters from friends in Chicago, also one from Joe, as I have plenty of time I will try to write to everyone that I can to remember.

I feel fine and am really gaining a bit in weight. Send the news to me and tell my friends who inquire that we will be back next year, but not until the Huns are finished.

Your son,  
Edward E. Waters.  
123 F. A., Bat. E.,  
Am. E. F., France.

From George Flynn.

Miss Rose Flynn, of Murrayville received the following letter from her brother George Flynn, who is stationed at Great Lakes, Ill.

Co. P. Reg. 15, Aviation Camp, Great Lakes, Ill.,  
Thursday, Nov. 21, 1918.

Dear Folks:-  
Received a letter from you today which was transferred from the other camp. I said that I

never said that I received the package you sent, but I sent a letter that I received them, the next day, also said I received that bill, but maybe you never received it for there is a pile of mail that leaves here every day and they are bound to lose some of it. I don't see how they can do as well as they do.

Well I fell in kind of lucky at this camp. I was made provost-guard, that is to oversee a bunch of men. Say, but it is a dandy job. You see I have to report at headquarters at seven o'clock and be ready about half past seven o'clock to take out a bunch of men. I had this morning, thirty five men under my control; this being my first day too. You see I am responsible for them and must see that they stay on the job.

This afternoon I had fifty of my own company. I certainly gave them an easy afternoon's work. There wasn't one of them that left the work and skipped out just to get out of work. You see I was the only boss they had. Pretty good, don't you think so? Ha! Ha! Pretty soft, I say. Every once in a while I would tell them to sit down and rest for about half an hour and smoke. They all say they want me to be in charge of them. I like it now, because it is new. I guess, maybe I will get sick of it in a little while. You never can tell. You see I am going to do this until I can go into the school. There are only about 6,500 boys in my regiment on the station, and it will be a good while before I can get to take a course.

You ought to see the machine shop. It is about a quarter of a mile or more long. They make the motor, starting at the front and the time you get to the back, you have got your motor set up ready to put in the airplane, some fancy work. I say, I would like to get the experience but the other night they passed around slips of paper with questions on it: wanted to find out if you wanted to go to school or be mustered out and sent home. I told them I would go spring before I could get in on the shops and I would just as soon go back where I came from, as I was farming and the war was over. I wouldn't be worth my time so I don't know for sure but they will turn us loose between now and spring, but if the war was still going on I wouldn't miss the chance. I do think yet that it would be a great benefit for a person to stay and see it thru.

I'm not a bit sorry about what I have learned already to the little time I was up here. I am glad I enlisted in the navy. One thing I would do if I had my life to live over, I would join this branch when I was about twenty years old and by now a person would draw his clothing and about \$125 a month and not turn his hand over only be an instructor. The chance for advancement is great, for a man that is willing to make good but you see I am along in years now, and of course I could get in good yet, but I think I will go back to my old trade but there is one thing sure, I am in no hurry to get out of here, for I am treated here the same as at home. All our bosses are swell. You know they have been here a good while and they have got some sense. They are just like the rest of the boys, they have an office of their own but they come out and stay with the boys most of the time.

We have the swellest bunch of officers in our company. I believe I ever run against. Just heard tonight if I stay in this job I have got now I will be the last one to leave the station. If that is so I will get out of it, but I don't know whether I will or not. Maybe I can't now, but there is nothing like trying. After while when I find out the straight of it. Say all the farmer boys can get a thirty day furlough now but I would sooner stay it out but McCuskey took one. I don't like to brag on my self but I never felt any happier in my life and don't believe I had any better time than I ever had. Well, I received another package from Jacksonville. It certainly was good, just sampled it before I came down here, still got some in my pocket.

"Gets-It," a Liberty Bottle for Corns!

There's Only One Genuine "Corn-Peeler"—That's "Gets-It."

Ever peel a banana? That's the way "Gets-It" peels off corns. It's the only corn treatment that will "Gets-It" is a guarantee that you

No More Excuse for Corns or Corn-Pains Now! won't finally have to gouge, pick, jerk or cut out your corns. If you want the pleasure of getting rid of a corn, be sure to get "Gets-It." It is a wonderful formula that has made "Gets-It" the corn marvel that it is, used by more millions than any other corn treatment on earth. A few drops on any corn or callus, that's all. It can't stick. It is painless, peels corns around, even in tight shoes, and your corns won't crucify you. You can go ahead and work, dance, live, love and laugh as though without corns. "Gets-It," the guaranteed, money-back, corn-remover, the only true corn cure but a single day's use. Mfg. by E. Lawrence & Co., Chicago, Ill. Sold in Jacksonville and vicinity by Armstrong's Drug Stores and Luby-Davis Drug Co.

I guess I will ring off for the present but will write again later. I heard that that Morse Walsh was back already. Say but that was to bad about Arthur Kitchin. My, but I was surprised. So, good bye for this time.

I remain as ever,  
Your true brother,  
George.

From Camp Pike

Hugh P. Green of the local board office has received the following letter from Wilbur Houck, who is with the army at Camp Pike:

"When I wrote you before I did not know that you had been called into camp yourself and you therefore were quite familiar with some of the facts about which I wrote you. I have become accustomed to cantonment life now and like it very much. I have put in a lot of time with my cornet and certainly did my part in helping celebrate the signing of the armistice. From what I hear, Jacksonville had a worth while celebration, as so many cities did. We had the band out here from 4 a. m. to late that night. We paraded nearly all day and you can know that I had a couple of tired feet the next day.

"You know how popular 'Dixie' is in the south, and you should have heard the crowd when we came down the street playing it. Our band leader is a German, direct from Berlin and he used to be chief trumpeter for the Kaiser. Can you imagine us playing under a leader with a record like that? He is a fine musician but it would suit us better to have a real American as our leader. Our discharges seem to be coming along very slowly and so I have no idea when I will be released. Our camp commander has been recently transferred and none of us here are able to find out much about demobilization plans. However, I am expecting to be home in Jacksonville again at no distant date. And while I have enjoyed the work here I will certainly be glad to go back in the old home city. I recently had a letter from brother Louis, written in France. He is with the 87th division and I understand that they have already started for England on their way home."

From Private C. A. Johnson.

Mr. and Mrs. H. Johnson of South West street are in receipt of the following interesting letter from their son, Private C. A. Johnson, of Co. H, 361st Infantry, American Expeditionary forces:

Somewhere in France.

October 15, 1918.

Dear Mother and All:  
I hope that you haven't been worrying too much about not having heard from me for so long a time. I guess many of the fellows here are the same way when it comes to writing. The reason is that we don't have time or else haven't the necessary material at the opportune moment.

We have sure been a busy bunch chasing the Hun, no doubt you have been reading in the paper about it every day and while you may not have read any mention of any particular division, it was our initiative; we started out during the middle of September and have been on the job practically ever since.

It is useless for me to try to go into details in describing everything. It is more like a past dream now anyway. I could sit and write a whole day but that is too big a job. But if you will refer to the Stars and Stripes of Oct. 4th, on the front page where it gives an account of the fighting you will get a very good description of it without any exaggeration. I imagine that this was a very beautiful country before 1914 but it looks now exactly as described in some mighty tight holes at times and I experienced such narrow escapes as to have a hole shot thru my mes kit also a piece of shrapnel went clear thru my pack and when I took my blanket out it looked as if it had been pulled thru a barbed wire entanglement. The Fritzies are at times very extravagant with their ammunition, also they don't miss you very far either, so it was many times I would have to feel myself to see if I was still all

Coughing Tires the Old

Elderly people, tired out and weakened with coughing, will find great help and comfort in

FOLEY'S HONEY-TAR

It relieves those chronic coughs, usually bronchial in character, and puts a soothing healing coating on a dry and tickling throat. It raises phlegm easily.

George Perry Randall, Dayton, Nevada, in his 57th year writes: "I take Foley's Honey and Tar for coughing and tickling in the throat. Sometimes the spell of coughing would last from five to ten minutes. I am very glad to tell you that Foley's Honey and Tar has stopped all that, and also the tickling."

J. A. Obermeyer & Son

together. We are now on our way back for a rest and I am writing this during one of our stops over night enroute.

Are you getting the Stars and Stripes all right? I don't remember if I told you or not, but our captain subscribed to it for each of us to send home for 3 months and I hope that you are getting it all right, it sure is a good paper. I won't have time to write any more now but will write again when I have a chance. Tell Gus

I received two letters from you also the report he sent from a L. G. I. M. Co. I received several letters from Bertha, also her address is the same yet. All of you write when you get time and don't wait for letters from me before you write even tho I write as often as I can  
In some of your letters you have asked questions which I would like to answer but I have

**WOODSON GARAGE**  
General repair work done by competent mechanics. Full line of automobile accessories, including all Ford parts. Work done with a guarantee of satisfaction.  
**E. W. SORRELLS, Prop.**  
Local distributors for Oldsmobile, Oakland, Buick and Chevrolet cars. Illinois Phone.

**Vanniers**  
Mexican Beans, while they last at 5c lb.  
New crop English Walnuts, just received at 35c lb.  
New crop Soft Shell Almonds, just received, at 30c lb.  
Quaker Corn Flakes at 8c box—less than wholesale cost and only a limited quantity left. Lay in your supply before they are all gone.  
Enright's "All O' The Wheat" Flour in 10 lb. paper bags at \$1.00 each.  
Just received a few barrels New Orleans Molasses at \$1.25 per gallon. Bring your containers and have them filled as the syrup market is very low.  
Our shipment of Haviland is in and marked. Come in and make your selection before it is all gone.  
**Vannier China & Coffee House**

**Stomach Troubles**  
Are you a sufferer? If you are, I want an opportunity to tell you what experience has shown that Chiropractic will do for you. Let me tell you what it has done for other sufferers.  
The human body is a marvelous self-moving and self-keeping machine. It receives and uses Living Force, an energy from an outside source no one can explain.  
The bones in the spine, which carries all impulse, are limited in motion by muscles which yield to allow bending and turning. These joints often slip their borders and are held there by muscular pull. This molests spinal nerves and confuses the health impulses they carry, which is the first cause of any disease.  
The skilled Chiropractor finds and reforms these spinal defects and Nature then does the work originally intended.

**W. H. NAYLOR**  
214-216 West Morgan St.

**The Brunswick**  
It is the new Brunswick method of reproduction that makes it possible to play all records as they never have been played before. There are two essentials to correct reproduction. The ULTONA reproduces the vibrations from the record. The All Wood Tone Amplifier rounds out the tones in their full, life-like beauty without the usual metallic harshness. The ULTONA is not an attachment, but a distinctly new creation—an essential part of the Brunswick's new method of reproduction. By a turn of the hand it adapts itself to any of the various different types of records. The playing point, the correct position, and the precise degree of pressure needed—all conditions are met by this amazingly simple device. So think of the Brunswick as something more than a pleasure giving instrument. It is the ideal phonograph for the home to develop in growing children a love and understanding of all good music. For it plays the music of all artists. And it plays it at its best.  
**R. T. Cassell**  
West Side Square

**HIS DAY OF FATE**  
Mickie Will Remember Incident as Great Victory.  
After All, Fear Is as Tough an Enemy for Some Boys as the Boches—Encouragement Will Work Wonders.

I cut down the woods road lined by dugouts and emplacements to see the boys before they started on their raid. I went to the very end of the woods, but I was too late. There, far down the white road, I could see the little khaki figures swinging along, Maude Radford Warren writes in the Saturday Evening Post. One, at the end, seemed much larger than the others. Then I could see that it was coming back. I waited. Soon I saw that the figure was Mickie. He came toward me, his head lowered.  
"What's the trouble, Mickie?" I asked.  
"Forgot my gas mask," he mumbled, "and the lieutenant sent me back."  
He didn't meet my eyes; poor little Mickie, only nineteen, hating rats and jumping at a loud noise, lazy and soft and fond of an easy bed! I put my hand on his arm.  
"Oh, Mickie," I said, "last time you were chosen for a party—the first time you were put on a real job—you had cramps. A boy with an Irish name shouldn't act this way. Don't you know that the boys already suspect you, and that the lieutenant is only giving you the benefit of the doubt? The next time anything like this happens to you he'll be certain, and then he'll put you in all the dangerous places. If you run away then he'll have you shot for cowardice. If you would just face it once you'd feel different. Nothing is ever so bad when we are going through it as we thought it would be before we got to it. Please, Mickie, take my gas mask and go back."  
All honor to the poor shaky lad that he did not try to excuse himself on the score that I should need the gas mask myself. He let me fasten it on him. Then I lent him my lucky fourleaf clover to wear as a mascot, and without speaking at all he started back down the white road.  
I returned through the woods, and any woman will know my thoughts: What if anything should happen to Mickie? What would his mother feel if she knew the responsibility I had taken? And why, if one came to that, had any woman the right to pray: "Not death to my son, O, God; some other woman's son!"  
If I had a son of soldier age I hope I'd have the courage not to pray for him except deep down. And I'm glad the mothers and wives and sweethearts of all these soldier lads are thousands of miles away from the battlefields. It's sort of wearing to see a man you care for put on his weapons and turn his back to you and walk down a camouflaged road. The real comfort is that after all the danger is very much less than it seems. We have to remember always that a small percentage of men are badly wounded; a smaller still killed, and the huge majority of shells and bullets never harm anything except earth and trees.  
Mickie was chattering of his adventures with his chin up when I next saw him. It was not the same Mickie. Only he would not meet my eyes. I found my gas mask later on the Y counter. To this hour Mickie has availed me; he cannot forgive me because I saw his greatest shame and the beginning of his conquering. Some day he will.

**Life of Concrete Ship.**  
A false impression seems to have been taken from some remarks of R. J. Wig, chief engineer of the concrete ship division of the Emergency Fleet corporation, relative to the short life of a concrete ship. He says, in correcting this error, "that experiments and investigations have shown that concrete ships will last a minimum of several years without any protection whatever. The application of protective coatings are certain to extend their life several years, and with the further developments of protective means upon which we are now working, I believe the concrete ship can be made as permanent as steel, if not more so. He further stated that if the concrete ship is built of the new concrete mixture developed by the Emergency Fleet corporation, the ship will be 20 per cent lighter than the wooden ship.  
**No Place for "Slacker."**  
Late-comers, drifters-in who are given to offering apologies for "half-done" work, and all other representatives of the make-believe element are so many discordant notes wherever one finds them, and if such people delude themselves with the idea that their code of thinking and doing will make life's ways any easier, the little disappointment is in store for them.  
The world is large and offers opportunities to the man or woman who proves his or her worth, but for the slacker it has absolutely no use, nor for the individual who, unthinkingly, perhaps, is prone to play a slacker's part.  
**Complete Rout.**  
"Our forces have been routed, year excellency, and are retreating in great disorder."  
"Have you lost control over them?"  
"Absolutely, all highest. We can't even get them to stop long enough to poison the wells as they beat it for home."

**NOT REALLY 'NEW'**  
Modern Comforts Well Known to the Ancients.  
Running Water in Houses, for Instance, Was a Luxury Enjoyed by Both the Roman and Early Egyptian Civilizations.

Many of the so-called "modern improvements" of civilization, which so largely contribute to the comfort of living, are by no means so recent in origin as we are disposed to imagine. An eminent archeologist has recently declared, for example, that Nero's palace in Rome had three elevators. It is true that those elevators must have been hoisting machines of very primitive pattern—operated presumably by man power, with the help of rope and counter weight—and it is more than doubtful that they were ever used to carry human freight. Few palaces or other buildings in ancient Rome were more than two stories in height, and passenger "lifts" were for that reason not needed.  
We are accustomed to think of running water in houses as a modern luxury. New York city did not have it until 1770, when a reservoir was constructed east of Broadway, into which water was raised by pumping it from wells dug for the purpose. But that was a very primitive arrangement compared with the system of ancient Rome, by which water was brought from great distances in aqueducts that were marvels of engineering and that emptied through lead pipes into thousands of tanks of hewn stone.  
Erected at intervals along the streets of Pompeii were pillars of masonry, up which ran lead pipes; and on top of each pillar was a tank, from which water was distributed by pipes to the houses. All dwellings, except those of the very poor, were thus supplied, and some had nearly a score of faucets, controlled by stopcocks that were much like those that are in use today.  
At many street corners there were fountains with stone basins, the edges of which even now show depressions worn by the hands of the people who leaned over to drink. Those fountains were fed by the city water, which was brought by an aqueduct from a distant place so elevated that the "head" was very powerful. That kind of engineering was highly developed in those times. When Julius Caesar first visited Alexandria in Egypt he found there so complete an underground water supply system that the city seemed "hollow underneath."  
In the year 73 B. C., Julius Caesar organized the fire department of Rome. It had a force of 600 men. At that time a primitive fire engine had already come into use; it was a pair of pumps worked by a beam, and the two streams united in a common discharge pipe and passed out through a nozzle that could be turned in any direction. "Siphons"—emergency fire extinguishers—were commonly kept in houses. Frequent mention is made of them in ancient literature, but we do not know what they were like.—Youth's Companion.

**Lafe's Tribute.**  
As we reached a certain smooth road, along which travel daily many ammunition wagons, we met a mule skinner walking. He was going in the direction of a certain military graveyard, where are buried Americans and French and Germans, Senegalese and Moroccans and Tunisians—Christians and Mohammedans. Over the mule skinner's right arm hung a French wreath. With his left hand he was leading a sullen looking mule. As we were about to pass him our engine died. W— got out to crank up and the mule skinner stopped to watch and talk to us. Meantime an M. P. strolled down.  
"Where you goin' with that, Lafe?" he asked, nodding at the wreath.  
"Well," replied Lafe, with a hitch at the mule, "there was a damn fool I used to sleep with, and he got his two nights ago. He was a hell of a good fellow, and I bought this wreath to put on his cross."—Maude Radford Warren in the Saturday Evening Post.

**Aid to Transplanting.**  
Transplanting flowering and vegetable plants is now greatly facilitated by the use of paper flower pots which are nothing more or less than the familiar paper drinking cups. For use in the farm and garden these cups are perforated and the seedlings are grown in them in the nursery. When it comes time to put the delicate plants out in the open they are transferred bodily, pots and all, and placed in the ground. The transfer is attended by no shock whatever, which is rarely the case when the roots are disturbed during the operation as when removing them from the little pots of clay which are generally used for this purpose. The perforations enable the rootlets to find their way beyond the limits of the pot, and so the paper does not interfere with their growth.  
**All Wanted a Change.**  
I was sitting on the porch one day reading and much interested in my book. Of a sudden I became aware of the fact that the little boy downstairs had been drumming and singing at the top of his voice for some time. I listened. He sang, "Turn to the left, boys, turn to the left," over and over again until I wished he would change it and sing something else. Evidently the little boy two doors away wished the same thing, for he called out, "For goodness sake, Danny, turn to the right."—Exchange.

**FRIENDSHIP HARD TO EXPLAIN**  
Scientists Unable to Account for Companionship of Australian Death Adder and the Rat.  
Though scientifically regarded as "the most dangerous and probably the most deadly" of Australian snakes, the death adder has to its credit many everyday proofs to the contrary; so many, indeed, that some are inclined to class it as comparatively harmless, the reasons for such opinion being: (1) the small size of the creature, reducing the risks of its being interfered with inadvertently; (2) its amiability; (3) the fact that unless the sensitive membrane at the end of the tail, to which the curved spine is the culminating point, is trodden on or otherwise insulted, the chances are that there will be no active resentment.  
Many years ago a locality in Australia suffered from a raid by bush rats, which congregated in great numbers. Similar plagues have often been recorded from the western downs; but the coastal visitation was singular, for it was associated with death adders, which seemed to be on good terms with the rats. One of the settlers was growing sweet potatoes on a fairly large scale for pig food, the plow being used for the harvesting of the crop. Seldom was a furrow run for the full length of the field without turning both adders and rats.  
Suddenly the rats migrated, and then the death adders disappeared, few of either being seen for a decade, when the association between them was again sensationally illustrated. The daughter of a settler rose at dawn, and with others ran off to the vegetable garden for salads for breakfast. While she was looking for a seemingly cucumber, a rat was disturbed, and almost immediately after she was bitten by a death adder which had lain inert at the very spot whence the rat had fled. The child recovered, while the deceptive snake, which will not submit to have its tail saluted even by the alriest of treads, was killed. This illustrates afresh the singular association between an adder and a rat. Why and for what purpose does this apparent amiable exist?

**Aviator's Heart Enlarged.**  
Doctors Etienne and Lamy of Nancy, France, have conducted a series of X-ray examinations of the hearts of aviators and have found evidence of considerable enlargement. This heart enlargement sets in early in the flying man's career, being noticeable after five months of experience in the air. The degree of enlargement is roughly proportioned to the height at which the aviator is accustomed to fly, so that simple examination of the X-ray plate suffices to determine a man's branch of flying service, whether he is doing chasing and bombing work at high altitudes or is engaged at harrying infantry, etc., at comparatively low altitudes.  
The enlargement seems to be symmetrical, and it does not appear to involve serious trouble. It is due to the heart's adapting itself to the extra work put upon it by changes in the blood circulation because of the varying conditions in the atmosphere through which the aviator flies and to the general happenings incident to aviation.

**World's Biggest Wireless Station.**  
Japan is to have the greatest wireless station in the world, according to a report to the Japan Advertiser. It will be built in Fukushima prefecture, says the department of communications, and will cost 800,000 yen (\$430,000). The dispatch station will be at Hibarigahara, near Harimachi, and the receiving station will be at Hosoya-cho. Survey work has been started by engineers of the department.  
The direct distance between the new office and San Francisco is 4,600 miles, while that between the Funabashi office and Honolulu is 3,250 miles. Service will not be opened for two years. The new office will communicate direct with San Francisco without relay in Hawaii.

**Caves Bear Traces of Old Conflict.**  
Only 20 miles from Phoenix, an Arizona man, Joseph Yberr, in exploring three caves on the edge of a gulch, came upon the traces of an old conflict, whose cause and date are still a mystery to the community. Observing that one of the caves was protected by a breastworks of stone and timber, he entered and discovered, among scattered saddles, spurs, and cartridge shells, eight skeletons. Seventeen more were found in the other caves, but there was no clue to show how these men had perished. A sack of tobacco was there, and empty flour bags, coffee cups, and pails which bore labels indicating that they were on the market no longer ago than 1903. A Mexican herb, such as the Papago Indians carry, was found.

**Fluxie Also in the Game.**  
Several weeks ago my aunt stirred up the family by suddenly eloping with a young man with whom she was acquainted. A few days later little Eleanor visited grandmother, and, finding it dull, was asking to be allowed to play with the family's poodle. She was told that aunt took Fluxie with her. She came home greatly excited and before she was fairly within the house exclaimed, "Oh, murmur, Fluxie, I loved, too."—Chicago Tribune.

**Judged by Their Records.**  
Mrs. Klawier—But how do you know what kind of people the Newcombs are if you've never met them?  
Mrs. Flatt—I have heard their phonograph selections.—Boston Evening Transcript.

and it sure is all in now, and I don't think it is going to stand much more as the wet and cold works a severe hardship on it. I hope all at home are well and happy and take the best care of yourselves all of you. You are possibly having cold weather by now, and I hope there will be no coal shortage. Have a good time Thanksgiving and believe me I wish I could be with you. Tell Eddie to write and give my best regards to L. J. folks and everybody.

Will close with best love to all. From lovingly,  
Your son,  
Private C. A. Johnston.  
Co. H., 341st Inf.,  
American E. F.

I hope that you can find the

## Heat Skin Diseases

It is unnecessary for you to suffer with eczema, itches, ringworm, rashes and similar skin troubles. A little zemo, obtained at any drug store for 35c, or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress.  
The E. W. Rose Co., Cleveland, O.

paper of Oct. 4th, and read that account also I will ask you to keep it for me, if you haven't got it possibly you can borrow one as there surely must be a bunch of them sent to the states. This is about the longest letter I have written since I came over so you might write to Gus and Bertha in L. A. and tell them that you heard from me and that I will write to them real soon at my first opportunity and that I am always glad to hear from them at all times, also give them my best. Lovingly,  
Arthur.

Somewhere in France, Sept. 24, 1918.

Dear Brother and Sister:

Will try to write you a line or two to let you know I am O. K. and still on the job. I suppose you are all looking for a letter from me. I have written you all several times but I doubt very much if you ever received the letters. I received a letter from Mary last week which she sent to Camp Beauregard, La., the 28th of July. It followed me all the way over.

I am looking for a letter from you every day. I would like to know if you are all well and I wonder if H. Y. is over here yet?

Well, this is sure a beautiful country and I think I have been over almost all of it for I have gone nothing but travel since I have been over here. This is one trip that if I ever get home I will never forget, but the longer I am here the less I know, and I hope we will all soon be home, and when that day comes it sure will be a happy one. We will have another party out at Nichols park. I wonder if O. K. Taylor sold my car yet?

## Have Your Auto Overhauled

during the WINTER months and get it done where you can save money. I am located in a small town, do my own work, and as my expenses are small I do not have to charge two prices. I will overhaul your machine and put it in good shape for a time charge of 50c per hour. Come and see me. All work guaranteed.

**Clark Hills**  
MAIN ST. GARAGE  
Franklin, Ill.

What are the folks going to do with the farm? I suppose some one will take care of my corn and wheat, that is to see that it is sold at the best price. As I do not know anything about it I will close. Just tell everyone who asks about me that I am O. K. and that I send my regards to everyone. I am as ever.

Your loving brother,  
Albert Yording.  
128th Inf., H. D. Q. Co., A. E. F.,  
A. P. O. 734.

Oct. 19, 1918.

I suppose you are all anxious to hear from me. Well, I have been quiet about the last month and sometimes it is nearly impossible to get the mail out, but I try to write as often as I can.

I am up at the front lines writing this and I am not quite sure that you will receive this letter, but I hope so. I have been in the trenches eight days. It sure is an exciting game over here. You don't get lonesome here, for there are always plenty of shrapnel shells and machine gun bullets to keep a fellow awake. The best friends I have over here is my steel helmet and gas mask and a shell hole to crawl into sometimes feels mighty comfortable too. But it is much different up here at the front than I thought it would be. But I can't say it is any worse than I expected to find it, and if I tried to explain just what I have experienced I am afraid the letter would not pass the censor, so will have to tell you all when I return, and I hope that time will soon come.

How is mother? Does she worry much about me? Tell her not to, for I feel just as sure that I will get home O. K. some day. I am with a dandy bunch of boys. There are thirty-eight of us and we have three one pound cannon guns, or did I write and tell you that I had been transferred to the H. D. Q.? All of them except six have been here since March. I wonder if all of the boys that left the 28th of June are over here yet?

I am sending this slip or coupon and you can have the folks send me a Christmas package. I suppose you will understand this coupon. Just paste it on the package. I suppose the best candy to send would be that hard stick candy or peanut candy. I would rather have hard candy for I can handle it better and it will also last longer, ha, ha.

I think we are going back to a rest camp soon, so will write you again from there. Tell everybody I said hello, and write to me soon. I haven't received any mail since I have been in France. As ever your loving brother,  
Albert.

From Capt. Louis C. Johnston

C. D. Johnston is just in receipt of the following letter from his son, Capt. Louis C. Johnston, giving an interesting account of his experiences and work in Field Hospital 130, 108th Sanitary Train, A. E. F.:  
Nov. 6, 1918.

My Dear Father:  
Was much pleased to receive your letter a few days ago. Everything is going nicely here in the hospital, but we are not very busy anymore. It seems as tho the Huns have at last begun to realize that they have been fighting a losing game, framed by a proud, egotistical honor seeking German.

The end of the war is very near now. I really believe the big fighting will all be over by the time you receive this letter. I'm really sorry that our chances for getting into real Germany turning our troops loose is very poor. I wish we could, but because the people really know what those savages had done here in France, and up in Belgium where I was before, you would all want this war to last until Germany had been repaid "in kind."

I don't think it is just the rulers there who are to blame, but every one of them that have taken any part at all. Personally I would enjoy seeing them all with their throats cut from ear to ear. I may have my blood slightly stirred up tonight because one of my best friends was killed today; died in the ambulance just before he got to my field hospital.

You know it makes us pretty sore to stop and think what these Germans have done, and how easily they will probably get out of it all by simply paying some money to some body, and electing a new boss.

At present am in the best part of France that I've seen. Much better than the Albert front where I was all summer with the British and Australians. Then, too, we were working in large deep dug-outs. Sometimes we would have forty to fifty patients at one time, all on stretchers, way down in a hole. Oh! It is surely some gay life! But now we are all living as Kings, compared to that, and in very little danger.

You can always tell about where I am by the newspapers, as my hospital is always back of the 33rd division, and I know you have heard of the 33rd, as it is absolutely one of the five best over here. The Illinois National Guard has made such a name for itself that whenever the 33rd is mentioned to a stranger he will look around to see who you are. This division has been cited for honorable mention, and it surely deserved it, judging from the work it has done, and the speed used in doing it. It was a joke last summer to hear those game, tough Australians call our infantry "rather rough" I know some of them who threw their guns away and went over the top with a club. I believe I will be back in Chicago practicing medicine by next

fall. It will seem rather strange to be back at work again. I wish I knew more of the Jacksonville boys here, as I would keep a look out for them, as any wounded will pass thru my hands, and I would give them special care, because altho I've been away from there for a good many years, I still think of it as home.

Hoping to hear again from you soon.  
Your loving son,  
Capt. Louis C. Johnston.  
Field Hospital 130,  
108th Sanitary Train,  
Am. E. F., France.

## Receives Letters from Brothers

Mrs. W. E. Mosley of Prentice is in receipt of the following letters from her brothers, Thomas and John Stephenson, who have been with the American troops in France since February, 1917:  
Oct. 18, 1918.

Dear Sister --  
I will write to you as I haven't heard from you for a while. This leaves me well at present and I hope you are all as fortunate. John is in the hospital now, suffering from a rising in his head. I think he will be all right in a few days.

I had a letter from home the other day and they were all right. You asked if you could send a parcel post package to me, and I will send you a coupon which will indicate what is necessary to do. Don't send anything which you can't get in this package. I don't know of anything that I need, but if you have something you want to send just send it. All of the boys have the privilege of sending one of these coupons to any one that wants to send them something.

I hope things are going well with you and the home folks. We are having some very cold weather here now but you know a "drier" can stand it all right. Say, you would laugh if you could hear me trying to talk to the French girls.

I will close now, as news is scarce. Answer soon and tell me all the good news from home.  
Your brother,  
Thomas Stephenson.  
Co. B, 164th Infantry,  
A. E. F.

Oct. 26, 1918.

Dear Brother and Sister:--  
I will now answer your welcome letter which I have just received. I was sure glad to hear from you all and to know that you were all well. This is the first time I have heard from you since I left home. I am well at present. I was in the hospital for a while with the influenza but I am all O. K. now and on duty.  
You asked if we were still in battle. Well, that is what we came over here for, so if the good Lord lets me live and I can keep my health I will surely do my part to stop this war. The Huns haven't been able to stop the Yankees yet, for they are the real fighting boys.

I received a letter from home the other day, also one from

and from a friend in Kentucky all at the same time, and I was certainly glad to get them. Another boy got four Wayne County papers and these fix us up with news for a while. Believe me, I sure do enjoy reading news from the old U. S. A.

You spoke about sending us something for Christmas. I know you want to send us something but I think it is no use because we wouldn't get it for perhaps two or three months, and maybe not at all. When I get back I will eat my present up in chicken with you and Bill, and I am sure coming if I live to get back there. Tell Bill I hope that he won't have to go to training camp for it will make it bad for him as it is corn husking time.

We are having lots of rain here now and there isn't any news worth writing. I will close for this time, wishing you all a merry Xmas and a happy New Year.

Your brother,  
John Stephenson,  
Co. B, 164th Inf.,  
A. E. F.

P. S. I don't think I sent you one of these pictures, and I am enclosing one so you can see brother Tom and I together.

## Knowledge is Power

## Read and Learn

Scientific tests prove that on an average, 20% of whole grain fed to cattle is of no benefit. This big percentage of feed is wasted. Where hogs are kept to take up this waste, 50% of it is saved. Therefore, you waste 10%. You can fatten five steers with ground feed, and the same amount not ground would only take care of four. Why lose this great amount when such little effort will save it?

In feeding or fattening hogs as well as cattle or milk cows, ground feed has proven a big saving. The old proverb is still true—Waste not so we will not want. The big saving at a small cost comes by using a United Feed Grinder—the grinder with the self-sharpening, oscillating burrs. The four point oscillating burr adjustment insures even grinding at all times at the minimum power and eliminates trouble. The force feed screw worm forces the grain against the cutter car. Ear corn is reduced so it will enter burrs easily. Equipped with safety bottom which has four break pins to protect mill against foreign substance, such as rocks, spikes or chunks of iron, from damaking the working parts by allowing the bottom to drop down when extra pressure is brought to bear on the machinery.

It has an extra heavy main frame, supported by four extra heavy angle steel legs, well braced. All boxings babbitted with best babbitt metal which reduces to a minimum all friction. The hopper is made of No. 18 gauge steel which is heavier than used on most mills. The main shaft is high carbon steel and on 8 and 10 inch mills measures 1 7-16 inches. The end thrust friction is absorbed by real ball bearings.

For light draft, quick work, this mill exceeds anything yet placed on the market and is sold with the assurance that it will give satisfaction. To be assured of proper power for any purpose look for the UNITED GAS ENGINE. Remember the combination and whether feeding for fat or milk buy a grinder. For the balance of this month we will make the following prices:

Size	Capacity	Price	Horse Power	Price
Grinder	Per Hour		Gas Engine	
5 in. Burr	5 to 8 bu.	\$10.00	1 3/4, with Magneto	\$ 60.00
6 in. Burr	10 to 20 bu.	\$26.00	2 1/4, with Magneto	\$ 80.00
8 in. Burr	20 to 35 bu.	\$38.00	3 1/2, with Magneto	\$ 95.00
10 in. Burr	25 to 50 bu.	\$45.00	4 1/2, with Magneto	\$150.00
Sackers for any size		\$15.00	6, with Magneto	\$225.00
1-Hale Corn Sheller		\$12.00	20-in. Wood Saw with frame	\$35.00

## BETTER THAN CALOMEL

Thousands Have Discovered  
Dr. Edwards' Olive Tablets  
are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place. Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "foggy" and heavy. Note how they "clear" clouded rain and how they "perk up" the spirits. 10c and 25c a box. All druggists.
